

not puncture or incinerate container. Exposure to temperatures above 100°F may cause bursting. Incineration of container may cause explosion.
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL: STORAGE: Store in a cool area away from heat or open flame. DISPOSAL: Do not reuse empty container. Wrap container and place in trash collection. Shake well before each use. To operate, hold can upright, direct orifice toward the surface to be treated, and press the actuator button. Do not use as a space spray.

To kill ANTS, CARPET BEEYLES, CENTIPEDES, COCKROACHES, CRICKETS, EARMIGS, FIREBRATS, MILLBOGS, SILVERFISH and SPIDERS: Thoroughly apply as a spot treatment to areas where these pests are found or may hide, including dark corners of rooms and closets, cracks and crevices under carpets, along baseboards and door sills and frames, behind and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. Spray ant trails, nests and points of entry. To kill FLEAS, and BROWN DOG TICKS: Apply thoroughly as a spot treatment to infested areas such as pet beds and resting quarters and nearby cracks and crevices, along and behind baseboards, windows and door frames and localized areas of floor and floor covering where these pests may be present. Fresh bedding should be placed in animal quarters following treatment. Do not spray pets with this product.

To control FLIES, GNATS, HORNETS, MOSQUITOES, SMALL FLYING MOTHS, WASPS and YELLOW JACKETS: Use only on outdoor surfaces. Spray outside surfaces of window and door frames and other areas where these pests may enter the home. Also spray dark corners and localized nesting areas, such as under eaves, porches, partitions and in garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when effectiveness diminishes.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A SPOT AND/OR CRACK AND CREVICE TREATMENT IS NOT PERMITTED.

Application within Food Handling Establishments (Places other than private residences in which exposed food is held, processed, prepared or served) including, but not limited to, areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing foods, edible waste storage and enclosed processing systems (milk, dairies, edible oils, syrups). Use as a crack and crevice treatment in and around both food and non-food areas to control ANTS, COCKROACHES, CRICKETS, SILVERFISH, SPIDERS and WATERBUGS. Apply in small amounts directly into cracks and crevices. In points between different elements of construction between equipment and floor openings leading to voids and hollow spaces in walls, equipment legs and bases. In conduits, motor housings, junction or switch boxes. Prior to application de-energize electrical equipment. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food and food processing surfaces.

Application within Food Serving Areas (Facilities where foods are served such as dining rooms, but excluding areas where foods may be prepared or held) apply as a spot treatment to selective surfaces, such as baseboards, under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)
