HAZARDS TO HUMANS AND DOMESTIC ANIMALS
ENVIRONMENTAL HAZARDS
PHYSICAL OR CHEMICAL HAZARDS**

WARNING: May be fatal if swallowed or absorbed through the skin. Do not breathe vapors or spray mist. Do not get in eyes, on skin or in
Causes eye and skin irritation. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists.
This product is toxic to wildlife and fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwater.
Do not use or store near heat or open flame.

**DIRECTIONS FOR USE
STORAGE and DISPOSAL**

Storage: Do not expose product to heat, spark or open flame. Store container in a cool dry location. Do not expose product to temperature
Store product in original shipping container in a locked storage area. Keep container closed when not in use. Do not contaminate water, food
by storage or disposal.
Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. In
of a spill or leak, contain product with an oil absorbent and dispose of in accordance with state or local regulations. Wear protective clothing during
up procedures.
Container Disposal: Triple rinse or equivalent. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or
procedures approved by state and local authorities.

USE DIRECTIONS

A non-selective herbicide that can be applied for post-emergence or pre-emergence weed control. It is recommended that this product be used
such as industrial sites, around buildings, roadways, rights-of-way, lumber yards, tank farms, cameloties, driveways, parking lots, fence areas, in
areas and airports. Product is water emulsifiable and non-corrosive to equipment.
Do not contaminate water used for domestic or irrigation purposes. Do not store near fertilizers, seeds, insecticides or fungicides.
DILUTION FOR WEED and GRASS CONTROL: SPOT TREATMENT: For control of annual and susceptible perennial weeds (such as
bromegrass, oatgrass, goosegrass, sandbush, wild radish and plantain), thoroughly mix 2-3 pints of this product in 3 gallons of water and
to 250 square feet to give thorough and uniform coverage.
LARGE TREATMENT AREA: Application rates for large areas depend on climatic conditions, soil type, weeds present and stage of growth
product per acre.
The higher rate of application should be used where longer residual control is desired in regions with a long growing season or for control of
perennial weeds and grasses such as Johnsrass, bindweed and wild carrot. During seasons with excessive rainfall causing heavy weed growth
treatment may be required.
For faster top-kill of existing vegetation, apply this product at the above dilution rates in diesel oil, fuel oil or weed oil. This product should not
on land to be cropped, or near desirable tree shrubs or plants, as injury may occur. Do not apply to areas underlain by roots of desirable trees or
shrubs.
