NOTICE OF PESTICIDE:

Registration
[X] Reregistration
(under FIFRA, as amended)

Term of Issuance:

Name of Pesticide Product:

Misty 2 Plus 2

Name and Address of Registrant (include ZIP Code):

Amrep, Inc.
990 Industrial Park Dr
Marietta, GA 30062

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is reregistered in accordance with FIFRA section 4(g)(2)(C) provided you:

- 1. Submit and/or cite all data required for registration/reregistration review of your product when the Agency requires all registrants of similar products to submit data
2. Make the following changes to the product labeling.
a. Remove the box frame from the User Safety Requirements section to the User Safety Recommendations section.
b. Revise the Container Disposal statements in accordance with PR Notice 2007-4.

A stamped copy of your labeling is enclosed for your records. Submit one (1) copy of the revised final printed label for the record before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

2 Plus 2 Granular Weed Killer

- Time Released
- Double Action
- Soil Sterilant
- Nonselective

ACTIVE INGREDIENTS:	
Bromacil (5-bromo-3-sec-butyl-6-methyluracil)	2.00%
Diuron [3-(3,4-dichlorophenyl)-1,1-dimethylurea]	2.00%
INERT INGREDIENTS:	96.00%
TOTAL:	100.00%
Contains 0.02 lbs of Bromacil and 0.02 lbs of Diuron per pound of product.	

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.

KEEP OUT OF REACH OF CHILDREN.

CAUTION

See side panel for additional precautionary statements

NET CONTENTS 3 POUNDS (1.362 KG)

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE): Loaders, applicators, and other handlers must wear: long sleeved shirt and long pants, shoes plus socks, chemical resistant gloves made of any waterproof material. In addition, applicators using tractor drawn spreaders and all loaders must wear a NIOSH-approved respirator with a dust/mist filter with MSHA/NIOSH approval number previs TC-21C or any N, R, P, or HE filter.

USER SAFETY REQUIREMENTS: Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exists, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS: Users should wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID STATEMENT: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the National Poison Control Center at 1-800-222-1222 for emergency medical treatment information.

ENVIRONMENTAL HAZARDS: Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters. Apply this product only as specified on this label.

GENERAL PRECAUTIONS AND RESTRICTIONS: Do not enter or allow others to enter until dusts have settled. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Application with a spoon, a pump-feed backpack spreader or a gravity-feed backpack spreader is prohibited. Do not apply on or near valuable woody or herbaceous plants or on areas where their roots may extend because of possible injury to such plants. Do not use on croplands or any land to be used for subsequent cropping. Keep animals off treated areas. Thoroughly clean spreading equipment with a suitable chemical cleaner before using for other purposes (or do not use same spreading equipment for other purposes). Not to be used on turfgrass at residential sites (including homes, apartment complexes, condominium grounds, daycare facilities, schools, playgrounds, parks, recreational areas, and sports fields). Not to be used to treat ditches and/or ditch banks. Do

not exceed an annual maximum application rate of 600 lbs of product (12.0 pounds of active ingredient diuron) per acre per year.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use of this product in certain portions of California, Oregon, and Washington is subject to the January 22, 2004 Order for injunctive relief in Washington Toxics Coalition, et al, v. EPA C01-0143C (W.D.WA). For further information, please refer to www.epa.gov/esp.

This granular weed killer is a non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended only for non-cropland and right-of-way areas such as railroads rights-of-way and industrial areas. Applications of 200-400 pounds of this product per acre usually results in a non-productive condition of the soil for a period of a year or more. The duration of non-productivity is dependent upon rainfall, soil type and other conditions.

This product should be applied as furnished with a speed spreader, a fertilizer spreader, a shaker type applicator or with any equipment which will distribute the chemical uniformly over the area to be treated. Application with a spoon, a pump-feed backpack spreader or a gravity-feed backpack spreader is prohibited. Do not exceed an annual maximum application rate of 600 lbs of product (12.0 pounds of active ingredient diuron) per acre per year. In areas of high rainfall or dense vegetation, 400-600 pounds of product (8.0-12.0 lbs of active ingredient diuron) per acre may be required. Do not exceed a maximum rate of 600 lbs of product (12.0 pounds of active ingredient diuron) per acre in the areas of high rainfall or dense vegetation. In all other areas for the control of annual and most perennial weeds and grasses; apply at the rate of 200-400 pounds of product (4.0-8.0 lbs of active ingredient diuron) per acre. Do not exceed a maximum application rate of 400 lbs of product (8.0 lbs of active ingredient diuron) per acre. On smaller plots, apply 0.5-0.9 pounds of product (0.010-0.018 pounds of active ingredient diuron) per 100 square feet with a maximum rate per application: 0.9 pounds of product (0.018 pounds of active ingredient diuron) per 100 square feet. Apply a maximum of two applications per year. Minimum retreatment interval: 90 days. To obtain the best results, this product should be applied to the ground where it will be absorbed by the roots. Applications made early in the season have been found to give results superior to applications at a later seasonal date. Product may, however, be applied at any time of the year. Maximum effectiveness in arid regions is obtained when application is made just prior to the rainy season. Users should consult state agricultural experiment stations or extension service weed specialists for recommendations as to use in their particular area.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. **PESTICIDE STORAGE:** Store container in a cool dry location. Do not expose product to temperature extremes. Store product in original shipping container in a locked storage area. Keep container closed when not in use. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product must be disposed of according to applicable Federal, state or local procedures. **CONTAINER DISPOSAL: IF EMPTY:** Do not reuse this container. Place in trash or offer for recycling if available. **IF PARTLY FILLED:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY STATEMENT: To the extent consistent with applicable law, buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label directions.
