PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Avoid inhalation of vapors. May cause eye irritation. Avoid contact with skin, eyes or clothing. Wash contaminated skin promptly with soap and warm water. For eyes, flush with plenty of water. Get medical attention if irritation persists. Avoid contamination of food and feedstuffs.

For outdoor use only. For use in yards, parks, woodlands, playgrounds, and golf courses.

Physical Hazards

Externely + Jon multer

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To Kill Fire Ants in Their Mounds:

DO NOT DISTURB MOUND PRIOR TO TREATMENT. Attach injector rod to can.

While spraying, slowly drive rod into the mound until resistance is met, which indicates the bottom of the nest has been reached. Spray for 5 seconds for each 6" diameter mound. For example, an 18" diameter mound would require three separate injections around the mound. All mounds in the vicinity should be treated. For best results treatment should be made in early morning or late evening when ants are least active.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put in trash collection.
