

APR 10 1998

Ms. Susan Watson, Regulatory Affairs  
Amrep, Inc.  
990 Industrial Park Drive  
Marietta, GA 30062

Dear Ms. Watson:

RE: Application For Revised Labeling  
Product Name Change From "W-60-8" to "AmSolv Amcide 5702"  
(EPA Reg. No. 10807-194)  
Application Dated March 25, 1998

The amendment referred to above, submitted in connection with registration under the amended Federal Insecticide, Fungicide and Rodenticide Act is accepted provided that you make the labeling changes below prior to release for shipment of product bearing the amended labeling.

- 1.) We have no objection to your product name change from "W-60-8" to "AmSolve AmCide 5702." Our files will be changed to reflect your new product name.
- 2.) Submit a revised Confidential Statement of Formula (CSF) with your company name, address, and the new product name listed on the CSF.
- 3.) We have no objection to the proposed bullet "Microbicide" added to your labeling.

Submit two (2) copies of your final printed labeling before you release the product for shipment. A stamped copy of the labeling is enclosed for your records.

If you have any questions or concerns, then please call me at (703) 308-6422, or Killian Swift of my staff at (703) 308-6346.

Sincerely yours,

Adam Heyward,  
Product Manager 34

## AmCide™ 5702

### Industrial Water Treatment Compound Microbiocide

**ACTIVE INGREDIENTS:**

Poly(oxyethylene(dimethylimino)ethylene  
-(dimethylimino)ethylene dichloride) ..... 60.0%

**INERT INGREDIENTS:** ..... 40.0%

**TOTAL:** ..... 100.0%

This product contains 5.76 lb. of active ingredient per gallon and weighs 9.6 lb. per gallon.

**KEEP OUT OF REACH OF CHILDREN.**

**CAUTION:**

See back panel for additional precautionary information.

**NET CONTENTS:**

## AmCide™ 5702

**PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eye, or clothing.  
**STATEMENT OF PRACTICAL TREATMENT: IF SWALLOWED:** Rinse mouth with copious amounts of water then drink promptly a large quantity of water. Do not induce vomiting. Avoid alcohol. Get medical attention. **IF IN EYES:** Flush with plenty of water for 15 minutes. Get medical attention. **IF ON SKIN:** Wash with plenty of soap and water. Get medical attention if irritation persists.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not contaminate water by the cleaning of equipment or disposal of wastes. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

AmCide™ 5702 is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers. Prior to its use, systems must be cleaned to remove algal growth, microbiological slime, and other deposits. An initial slug addition of 0.9 to 2.2 fluid ounces of AmCide™ 5702 per 1000 gallons of water to provide a concentration of 8 to 20 parts per million of AmCide™ 5702, based on the total weight of water in the system, is recommended. Repeat initial dosage until control is evident.

Subsequent slug additions of 0.2 to 2.2 fluid ounces of AmCide™ 5702 per 1000 gallons of water (2 to 20 parts per million of AmCide™ 5702) should be employed every 2 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

AmCide™ 5702 is used to control bacteria in industrial air-washing systems that maintain effective mist eliminating components. Prior to its use, systems should be cleaned to remove bacterial slime and other deposits. An initial slug dose of 3.33 to 5.55 fluid ounces of AmCide™ 5702 per 1000 gallons of water is recommended. Repeat initial dosage until control is evident. Subsequent slug additions of 2.26 to 5.55 fluid ounces of AmCide™ 5702 per 1000 gallons of water should be employed each 1 to 5 days, or as needed. The frequency of addition depends upon the relative amount of bleedoff and severity of the bacterial problem. Slug additions may be made to the sump or to the water collection trays of the airwash system.

**STORAGE & DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. **STORAGE:** Do not stack more than four drums high. Leaking or damaged drums should be placed in overpack drums for disposal. Spills should be absorbed in sawdust or sand and disposed of in a sanitary landfill. Keep container closed when not in use. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** PLASTIC: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. METAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

HIMIS RATING: Health-1; Flammability-0; Reactivity-0; Personal Protection-B.
