Susan Watson
Amrep, Inc.
990 Industrial Park Drive
Marietta, GA 30062

Dear Ms. Watson:

SUBJECT: Label Amendment
Misty Repco Kill VF
EPA Registration No. 10807-201 ✓
Your Application Dated: September 15, 2003

The label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable with comment, provided that you make the following change:

Since this product is not intended solely for household use, reinstate the storage and disposal instructions specified in PR Notice 83-3.

The amended label supersede all previously accepted ones. A stamped copy is enclosed for your records. Please submit one copy of your label before you release the product for shipment.

Sincerely yours,

/s/

Joanne I. Miller
Product Manager (23)
Herbicide Branch
Registration Division (7505C)

Enclosure

Misty Repco Kill VF

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing.

PERSONAL PROTECTIVE EQUIPMENT (PPE): Applicators and other handlers must wear: Chemical-resistant gloves (such as Barrier Laminite, Neoprene Rubber, Nitrile Rubber, and Viton), Long-sleeved shirt and long pants, shoes plus socks.

USER SAFETY REQUIREMENTS: Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS: Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID STATEMENT: IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. **NOTE TO PHYSICIAN:** Contains petroleum distillates - vomiting may cause aspiration pneumonia. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

ENVIRONMENTAL HAZARDS: This concentrate is toxic to fish and wildlife and aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and non-target plants. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Do not contaminate water when disposing of equipment washwater. Apply only as specified on this label. Do not apply to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

STORAGE & DISPOSAL: DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE AND DISPOSAL. DO NOT STORE CONTAINER ON ITS SIDE. **PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL: IF EMPTY:** Do not reuse this container. Place in trash or offer for recycling if available. **IF PARTLY FILLED:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. A probe and pump must be used for transferring this pesticide if the container is 5 gallons or more. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination. When mixing, loading or applying this product, wear eye protection (face shield), chemical resistant gloves, long-sleeved shirt, long pants, socks and shoes. For aerial applicators in enclosed cockpits and applicators applying this product from a tractor that has a completely enclosed cab, eye protection is not required. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Repco Kill VF

ACCEPTED
with COMMENTS
in EPA Letter Dated
JAN 22 2004

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
this pesticide
registered under EPA Reg. No.
10807-201

Liquid Weed Killer - Contains Drift Reducer Non-Selective General Herbicide For Use in Non-Crop Areas

ACTIVE INGREDIENTS:
2,4-Dichlorophenoxyacetic Acid, 2-Ethylhexyl ester: 1.09%
Bromacil (5-Bromo-3-sec-butyl-6-methyluracil): 0.61%
INERT INGREDIENTS (contains petroleum distillates): 98.30%
TOTAL: 100.00%
*2,4-Dichlorophenoxyacetic Acid equivalent 0.70% (isomer specific by AOAC Method 6 DOL-5 (12th Ed.))
Contains Petroleum Distillate
0.04 lbs. Bromacil per Gallon

NET CONTENTS 1 GALLON (3.8 LITERS)

ENTRY RESTRICTIONS: Do not enter or allow others to enter the treated area until sprays have dried.
 Wash hands, face and arms with soap and water as soon as possible after mixing, loading, or applying the product. Wash hands, face and arms with soap and water before eating, smoking or drinking. Wash hands and arms before using toilet. After work, remove all clothing and shower using soap and water. Do not reuse clothing worn during the previous day's mixing and loading or application of this product without cleaning first. Clothing must be kept and washed separately from other household laundry. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put in clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing. Follow manufacturer's instruction for cleaning/maintaining PPE. If no such instructions are provided for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

GENERAL INSTRUCTIONS AND INFORMATION: This liquid may be applied at any time of the year except when the ground is frozen. Best results are obtained after vegetation has emerged, in late spring or early summer. Use power sprayers, compressed air hand sprayers, or an ordinary sprinking can. No dilution or agitation is required.

To control most weeds on non-cropland areas, such as: parking lots, fence rows, railroad sidings and storage yards, spray at the rate of 1 to 2 gallons for each 1000 square feet. It produces rapid top kill of succulent vegetation. Translocation and root absorption of component herbicides produce extensive root kill of weeds and provide long term residual control. This product is a liquid, non-selective, persistent, general herbicide designed for use where control of all vegetation is desired. It is recommended for non-crop areas such as fence rows, parking lots, around buildings, loading ramps, storage yards, tank farms, along pipelines, industrial plant sites and other similar areas where grasses and weeds interfere with drainage, create a fire hazard or cause unsightly appearance. Not to be used in any recreational areas or in or around homes. Use this product undiluted. This liquid weed killer is composed of 5-bromo-3-sec-butyl-6-methyluracil (bromacil) and a low volatile 2,4-D ester in a phytotoxic oil. The oil carrier combines the properties of low volatility with rapid penetration and translocation of the plant. The insolubility of the herbicide in water assures full effect regardless of rainfall after application or stages of growth at the time of application. Do not apply this liquid to areas where the roots of desirable plants such as trees or ornamentals will come into contact with it as injury might result. Do not use on lawns, driveways, walks or similar areas. Avoid spray drift to susceptible plants, as this product may injure cotton, beans, peas, etc. Do not contaminate domestic water or irrigation water and keep from contact with fertilizers, insecticides, fungicides and seeds. Vapors from this product may injure susceptible plants in the immediate vicinity. Coarse sprays are less likely to drift.

Thoroughly clean all traces of product from application equipment immediately after use. Use a suitable chemical cleaner, then wash with detergent and rinse with clear water. Do not contaminate water sources by cleaning of equipment or disposal of wastes. As per the Registration Eligibility Document (RED) a maximum number of applications must be specified. If more than one application is allowed, the retreatment interval(s) must also be specified. The maximum rate may not exceed 12 lb. a/A per year.

WARRANTY STATEMENT: NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions or under normal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of such use. READ DIRECTIONS CAREFULLY BEFORE USING THIS PRODUCT.
