U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

Date of Issuance:

10807-428

JUL 25 2007

Term of Issuance: Conditional

Name of Pesticide Product:

Misty Crawling Insect Killer

NOTICE OF PESTICIDE:

- Registration
 - Reregistration
- (under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Amrep, Inc.
990 Industrial Drive
Marietta, GA 30062

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 10807-428".
 - b. Revise the heading "FIRST AID STATEMENTS" to read "FIRST AID". Also, the First Aid heading and associated text should appear within a box outline.
 - c. Relocate the heading PRECAUTIONARY STATEMENTS to appear above the subheading Hazards to Humans & Domestic Animals.

Signature of Approving Official:

Date:

George LaRocca
Product Manager 13
Insecticide Branch
Registration Division (7505P)

JUL 25 2007

2/5

- d. Add "give" to the First Aid statement "Do not give anything by mouth...etc."
- e. Under Directions for Use add "Do not apply as a broadcast application in residential/household areas".
- f. Add "For Indoor Use Only" to the front panel.
- g. Add "For Household and Domestic Use" to the front panel, since the Agency assumes the product is intended to be used by both commercial applicators and the layperson.

Submit three copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

KEEP OUT OF REACH OF CHILDREN CAUTION

See Side Panel for Additional Precautions
NET WT. 16 OZ. (1 LB.)(454 GRAMS)

Side Panel

FIRST AID STATEMENTS: IF SWALLOWED: Immediately call a poison control center or doctor. Do not include vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not anything by mouth to an unconscious person. **IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **NOTE TO PHYSICIAN:** Contains petroleum distillate – vomiting may cause aspiration pneumonia. **HOT LINE NUMBER:** Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of *Medical* emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-255-3924.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with skin or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This product is extremely toxic to fish and other aquatic organisms. Do not apply directly to water.

PHYSICAL HAZARDS: Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- Do not apply to classrooms when in use.
- Do not apply in hospital patient rooms while occupied or in any rooms occupied by the elderly or infirm.
- Do not use in aircraft cabins.
- Do not apply to institutions (including libraries, sport facilities) in the immediate area when occupants are present.

Misty Crawling Insect Killer works in two ways: 1) it kills bugs fast on contact; and 2) its residual action keeps on killing German Cockroaches and Houseflies for up to 3 months after you spray.

SHAKE WELL BEFORE EACH USE. Hold container upright. Do not spray up into air. Apply to surfaces

only. Remove protective cap and direct spray away from face. Hold can 12-15 inches from surface being sprayed. Press button down and spray as directed. Test product in an inconspicuous area before applying. Spray surface until slightly wet but not to the point of runoff. Over application may cause damage. Misty Crawling Insect Killer will not stain surfaces or fabrics where water alone causes no damage. Remove pets, birds and cover fish aquariums before spraying. Do not allow dogs or cats to re-enter treated area until spray deposits have dried.

Cover all food processing surfaces before treatment or thoroughly wash after treatment. Cover or remove food prior to treatment.

Misty Crawling Insect Killer is intended for use in and around structures and their immediate surroundings. Permitted areas of use include (but are not limited to): basements, bathrooms, boats, campers, clothes storage, condominiums, garages, kitchens, pet sleeping areas, recreational vehicles, storage areas, apartment buildings, cafeterias, crematoriums, day care centers, factories, food/feed areas of food processing plants, food service establishments, food manufacturing and warehousing establishments, hotels, hospitals, industrial plants, jails, kennels, motels, mausoleums, mess halls, morgues, nursing homes, office buildings, other public buildings, pet grooming parlors, prisons, railroad cars, recreational areas, restaurants, schools, ships, supermarkets, taverns, theaters, trailers, trains, transportation vehicles, trucks, truck trailers, utility rooms, warehouses, washrooms and zoos.

Food/Feed Handling Establishments:

For control of all labeled pests, applications are permitted in the food/feed areas of food/feed handling and processing establishments as a general surface, spot or crack and crevice treatment.

Do not apply as a space spray. Do not apply in the food/feed handling areas of the facility when the facility is in operation or foods/feeds are exposed. Do not apply directly to food/feed products. Cover or remove all food/feed processing and/or handling equipment prior to application. After application in food/feed processing plants, cafeterias and similar facilities, wash all equipment, benches, shelving and other surfaces that will contact food or feed. After application in bakeries, clean all food contact surfaces with appropriate equipment.

Food/feed handling establishments are defined as places other than private residences in which exposed food/feed is held, processed, prepared or served. Included also are areas for receiving, storing, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) of food/feed. Serving areas where food/feed is exposed and the facility is in operation are also considered food/feed areas.

Non-food/non-feed areas include garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, mop closets and storage (after packaging, canning or bottling). All areas that insects inhabit or through which insects may enter should be treated.

INDOORS:

Cockroaches including adult and immature stages of both non-resistant and organophosphate and carbamate resistant strains, **ants, boxelder bugs, centipedes, crickets, beetles, firebrats, fleas, palmetto bugs/waterbugs, sowbugs and ticks:** Apply as a general surface, spot or crack & crevice treatment to all areas where these pests crawl and hide, especially in cracks and crevices, hidden areas around sinks and storage areas, behind baseboards, around doors and windows, behind and under refrigerators, cabinets, sinks and stoves, the underside of shelves, drawers, bookcases, and similar areas. When pests are driven out, spray directly. Repeat after 4 weeks or if re-infestation occurs.

Ants: Spray around ant trails, doors and windows and other places where ants enter the house. Repeat after 4 weeks or if re-infested occurs.

Carpenter Ants: For effective control, locate and treat nests and surrounding areas. Apply around doors and windows and other places where ants enter premises and where they crawl and hide. Spray into infested wood through existing openings. Repeat after 4 weeks or if re-infestation occurs.

Ticks (including ticks which may carry Lyme disease) and Fleas on Surfaces: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters. Adult fleas contacted by spray will be killed. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to treated area. Spray rugs and carpets where infestations are bad. Delicate fabrics should be tested for staining in an inconspicuous area prior to use. Repeat after 2-4 weeks or if re-infestation occurs.

Spiders: Apply along and behind baseboards, to window and door frames, corners, pipes, storage localities, attics, crawl spaces and into other areas where these pests are found.

Centipedes, Ground Beetles, Pillbugs, Sowbugs, Scorpions and Ticks: Apply around doors and windows, baseboards, storage areas and other locations where these pests are found.

SILVERFISH, CRICKETS, SPIDERS, EARWIGS: Apply to areas where these pests are found.

PANTRY PESTS - Beetles, Moths, Weevils, Flour Beetles (Red & Confused), Grain Beetles (Rusty, Merchant and sawtoothed), Chocolate Moths, Indian Meal Moths, Angoumois Grain Moths, Mediterranean Flour Moths, Cigarette Beetles, Drugstore Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles, Grain Mites and Tobacco Moths: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Discard used shelf paper and any infested foodstuffs. Apply spray to shelves and in cracks and crevices behind and under cupboards and cabinets. Allow spray to dry prior to replacement of shelf paper, food utensils. Repeat if re-infestation occurs.

5/5

Carpet Beetles (Black, Furniture and Varied) and Dermestid beetles (Hide/Larder/Leather): Spray on and under edges of floor coverings, under rugs and furniture and in closets or other localities where these insects are found. Fabrics should be tested for staining in an inconspicuous area prior to use. Repeat if re-infestation occurs.

Webbing or Clothes Moths: Use this product as a crack and crevice treatment in closets and other storage areas where these pests are found. This will not control moth larvae already on clothes. Do not apply to clothing. Repeat if re-infestation occurs.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Storage: Store in a cool, dry area away from [inaccessible to] children and pets and away from heat, sparks and open flame. [Protect from freezing.] [Do not freeze.] [Do not transport or store below 32°F].

Disposal: Do Not Puncture Or Incinerate! If empty: Place in trash or offer for recycling if available. [At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label.] If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.
