Antimicrobials Division (7510C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg. Number:
10807-430

Date of Issuance:
AUG 23 2007

Term of Issuance:
Unconditional

Name of Pesticide Product:
MISTY Air Sanitizer & Deodorizer-MDR

NOTICE OF PESTICIDE:
 Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Amrep, Inc.
990 Industrial Park Drive
Marietta, GA 30062

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA Section 3(c)(7)(A) provided that you:

1. Submit and/or cite all the data required for registration of your product under FIFRA Section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit required by registration review under FIFRA Section 3(g).
2. Make the following labeling changes:
 - a. Revise the EPA Registration Number to read, EPA Reg. No. 10807-430.
 - b. Place the appropriate EPA Establishment Number on the product labeling.

Signature of Approving Official:

Marshall Swindell, Product Manager, Team 33
Regulatory Management Branch I, Antimicrobials Division

Date:

Page 2

EPA Reg. No. 10807-430

3. Submit three copies of the final printed label prior to releasing this product for sale.

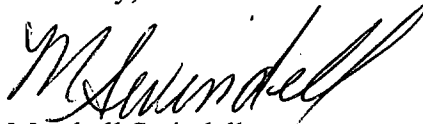

The Confidential Statement of Formula dated July 27th, 2007, is acceptable.

Submit a one-year long Storage Stability and Corrosion Characteristics study to the Agency for review.

A stamped copy of the label is enclosed for your records.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec.6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Sincerely,

Marshall Swindell
Product Manager 33
Regulatory Management Branch I
Antimicrobial Division(7510PC)

BACK PANEL

(This product or product name) eliminates odors and odor causing bacteria from the air when used as directed. As an air sanitizer, this product effectively kills odor causing bacteria to cleanse the air you breathe. As a deodorant, the counteractant system chemically bonds with the malodor molecule destroying the odor source instead of just covering up or masking. Odors from mildew, smoke, vomit, feces, urine and putrescence emitting from garbage receptacles, diaper hampers, sinks, drains, toilets, urinals and more are effectively eliminated with this product. Excellent for control of even the toughest odors such as animal odors from veterinary clinics, kennels, litter boxes and pet waste disposal areas. Post-fire odors including cigar/cigarette smoke treatment as well as protein decomposition odors from garbage, fisheries, and other challenging sources are also effectively treated. Especially suited for use in public rooms, homes, bedrooms, living rooms, dining rooms, restrooms, bathrooms/showers, pool or spa areas, pool houses, closets, basements, storage rooms, kitchens, cafeterias, schools, offices, hotels, casinos, hospitals, nursing homes, prisons, laundromats, theaters, auditoriums, railroad cars, heavy truck cabs, airplanes, RVs, campers, boats, cabins, beach houses, buses, taxicabs, sitting rooms, smoking rooms, game rooms, locker rooms, health clubs and fitness centers, factories, mills, department stores, grocery stores, and more. The advanced, low VOC chemistry is hydro-alcoholic with no petroleum distillates or hydrocarbon propellants. The ultra-dry spray has little fall out and is nonflammable. Frequent use will provide refreshed, pleasant air all day that is not just deodorized but also sanitized by reducing odor causing bacteria.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

THE FOLLOWING 3 OPTIONS FOR DIRECTIONS FOR USE CAN ONLY BE USED ONE VERSION PER PRODUCT AS THE LABEL IS TIED TO THE VALVE USED IN THE CAN – THE OPTIONS ARE NOT VARIABLE WITHIN.

1) STANDARD "3000" SYSTEM (USING 80 ml VALVE FOR 15 MINUTE CYCLE)

To temporarily reduce airborne bacteria and eliminate odors, open the door of the cabinet and remove used can if present. With the valve opening pointed toward you, place new can in dispenser per instructions. Door may or may not need to be closed for the following test depending on dispenser model. Step to one side, then turn control switch to "ON" position and/or push "TEST" button to confirm proper operation. Dispenser should operate one full cycle and spray once. Close door if not done already. Dispenser now contains 3000 sprays for use in closed areas and will last for 30 days when used on a 24 hour basis set to dispense every 15 minutes. One dispenser/refill is recommended per 6000 cubic feet of space or a room 30'x25'x8'. Air movement and ventilation rate may vary somewhat. Relative humidity should be 45-75% for maximum effectiveness.

NOTE: Dispensers should be mounted on wall at least 7 feet above the floor and in a location free from furniture, sensitive plastic surfaces or any other objects 3 feet in front of the cabinet. Not intended for use by placement on horizontal surfaces such as cabinets, shelves or other finished surfaces.

2) EXTENDED RANGE "9000" SYSTEM (USING 25 ml VALVE FOR 15 MINUTE CYCLE)

To temporarily reduce airborne bacteria and eliminate odors, open the door of the cabinet and remove used can if present. With the valve opening pointed toward you, place new can in dispenser per instructions. Door may or may not need to be closed for the following test depending on dispenser model. Step to one side, then turn control switch to "ON" position and/or push "TEST" button to confirm proper operation. Dispenser should operate one full cycle and spray once. Close door if not done already. Dispenser now contains 9000 sprays for use in closed areas and will last for 30 days when used on a 24 hour basis set to dispense every 5 minutes. One dispenser/refill is recommended per 2000 cubic feet of space or a room 16'x16'x8'. Air movement and ventilation rate may vary somewhat. Relative humidity should be 45-75% for maximum effectiveness.

NOTE: Dispensers should be mounted on wall at least 7 feet above the floor and in a location free from furniture, sensitive plastic surfaces or any other objects 3 feet in front of the cabinet. Not intended for use by placement on horizontal surfaces such as cabinets, shelves or other finished surfaces.

3) MICRO PULSE "3000³" OR "3000-3" SYSTEM (USING 25 ml VALVE FOR 5 MINUTE CYCLE)

To temporarily reduce airborne bacteria and eliminate odors, open the door of the cabinet and remove used can if present. With the valve opening pointed toward you, place new can in dispenser per instructions. Door may or may not need to be closed for the following test depending on dispenser model. Step to one side, then turn control switch to "ON" position and/or push "TEST" button to confirm proper operation. Dispenser should operate one full cycle and spray once. Close door if not done already. Dispenser now contains 9000 sprays for use in closed areas and will last for 30 days when used on a 24 hour basis set to dispense every 5 minutes. One dispenser/refill is recommended per 6000 cubic feet of space or a room 30'x25'x8'. Air movement and ventilation rate may vary somewhat. Relative humidity should be 45-75% for maximum effectiveness.

NOTE: Dispensers should be mounted on wall at least 7 feet above the floor and in a location free from furniture, sensitive plastic surfaces or any other objects 3 feet in front of the cabinet. Not intended for use by placement on horizontal surfaces such as cabinets, shelves or other finished surfaces.
