Subject: Notification per PRN 98-10 – Adding Alternate Brand Name
Product Name: Misty Altrasan Air Sanitizer and Deodorizer – MDR 3000
EPA Registration Number: 10807-430
Application Date: December 9, 2016
Decision Number: 524403

Dear Ms. Watson:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

The alternate brand name TimeMist Altra Sanitizer has been added to the product record.

If you have any questions, you may contact Terria Northern 703-347-0265 or via email at northern.terria@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Hebert", written over a horizontal line.

for

John Hebert, Branch Chief

KEEP OUT OF REACH OF CHILDREN
CAUTION

See back panel for additional precautionary statements.

NET WT. 8.2 OZ. (232 grams)

(This product or product name) eliminates odors and odor causing bacteria from the air when used as directed. As an air sanitizer, this product effectively kills odor causing bacteria to cleanse the air you breathe. As a deodorant, the next generation odor counteractant system chemically bonds with the malodor molecule destroying the odor source instead of just covering up or masking. Odors from mildew, smoke, vomit, feces, urine and putrescence emitting from garbage receptacles, diaper hampers, sinks, drains, toilets, urinals and more are effectively eliminated with this product. Excellent for control of even the toughest odors such as animal odors from veterinary clinics, kennels, litter boxes and pet waste disposal areas. Post-fire odors including cigar/cigarette smoke treatment as well as protein decomposition odors from garbage, fisheries, and other challenging sources are also effectively treated. Especially suited for use in public rooms, homes, bedrooms, living rooms, dining rooms, restrooms, bathrooms/showers, pool or spa areas, pool houses, closets, basements, storage rooms, kitchens, cafeterias, schools, offices, hotels, casinos, hospitals, nursing homes, prisons, laundromats, theaters, auditoriums; railroad cars, heavy truck cabs, airplanes, RVs, campers, boats, cabins, beach houses, buses, taxicabs, sitting rooms, smoking rooms, game rooms, locker rooms, health clubs and fitness centers, factories, mills, department stores, grocery stores, and more. The advanced, low VOC chemistry is hydro-alcoholic with no petroleum distillates or hydrocarbon propellants. The ultra-dry spray has little fall out and is nonflammable. Frequent use will provide refreshed, pleasant air all day that is not just deodorized but also sanitized by reducing odor causing bacteria.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

THE FOLLOWING 3 OPTIONS FOR DIRECTIONS FOR USE CAN ONLY BE USED ONE VERSION PER PRODUCT AS THE LABEL IS TIED TO THE VALVE USED IN THE CAN -THE OPTIONS ARE NOT VARIABLE WITHIN.

1) STANDARD "3000" SYSTEM (USING 80.ml VALVE FOR 15 MINUTE CYCLE)

To temporarily reduce airborne bacteria and eliminate odors, open the door of the cabinet and remove used can if present. With the valve opening pointed toward you, place new can in dispenser per instructions. Door may not need to be closed for the following test depending on dispenser model. Step to one side, then turn control switch to "ON" position and/or push "TEST" button to confirm proper operation. Dispenser should operate one full cycle and spray once. Close door if not done already. Dispenser now contains 3000 sprays for use in closed areas and will last for 30 days when used on a 24 hour basis set to dispense every 15 minutes. One dispenser/refill is recommended per 6000 cubic feet of space or a room 30'x25'x8'. Air movement and ventilation rate may vary somewhat. Relative humidity should be 45-75% for maximum effectiveness.

NOTE: Dispensers should be mounted on wall at least 7 feet above the floor and in a location free from furniture, sensitive plastic surfaces or any other objects 3 feet in front of the cabinet. Not intended for use by placement on horizontal surfaces such as cabinets, shelves or other finished surfaces.

2) EXTENDED RANGE "9000" SYSTEM (USING 25 ml VALVE FOR 15 MINUTE CYCLE)

To temporarily reduce airborne bacteria and eliminate odors, open the door of the cabinet and remove used can if present. With the valve opening pointed toward you, place new can in dispenser per instructions. Door may not need to be closed for the following test depending on dispenser model. Step to one side, then turn control switch to "ON" position and/or push "TEST" button to confirm proper operation. Dispenser should operate one full cycle and spray once. Close door if not done already. Dispenser now contains 9000 sprays for use in closed areas and will last for 30 days when used on a 24 hour basis set to dispense every 5 minutes. One dispenser/refill is recommended per 2000 cubic feet of space or a room 16'x16'x8'. Air movement and ventilation rate may vary somewhat. Relative humidity should be 45-75% for maximum effectiveness.

NOTE: Dispensers should be mounted on wall at least 7 feet above the floor and in a location free from furniture, sensitive plastic surfaces or any other objects 3 feet in front of the cabinet. Not intended for use by placement on horizontal surfaces such as cabinets, shelves or other finished surfaces.

3) MICRO PULSE "3000³" OR "3000-3" SYSTEM (USING 25 ml VALVE FOR 5 MINUTE CYCLE)

To temporarily reduce airborne bacteria and eliminate odors, open the door of the cabinet and remove used can if present. With the valve opening pointed toward you, place new can in dispenser per instructions. Door may not need to be closed for the following test depending on dispenser model. Step to one side, then turn control switch to "ON" position and/or push "TEST" button to confirm proper operation. Dispenser should operate one full cycle and spray once. Close door if not done already. Dispenser now contains 9000 sprays for use in closed areas and will last for 30 days when

used on a 24 hour basis set to dispense every 5 minutes. One dispenser/refill is recommended per 6000 cubic feet of space or a room 30'x25'x8'. Air movement and ventilation rate may vary somewhat. Relative humidity should be 45-75% for maximum effectiveness.

NOTE: Dispensers should be mounted on wall at least 7 feet above the floor and in a location free from furniture, sensitive plastic surfaces or any other objects 3 feet in front of the cabinet. Not intended for use by placement on horizontal surfaces such as cabinets, shelves or other finished surfaces.

[For Reviewer: Storage & Disposal statements may be boxed.]

STORAGE & DISPOSAL

STORAGE: Store in a cool area away from heat or open flame. **DISPOSAL:** Do Not Puncture or Incinerate! IF EMPTY: Place in trash or offer for recycling if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Avoid contact with eyes. Wash hands thoroughly with soap and water after using.

[For Reviewer: Boxed & "Bulleted" format will be used if label space permits; otherwise a paragraph format will be used.]

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact the national Poison Control Center at 1-800-222-1222 for emergency medical treatment information.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.
