EPA No. 10811-7

Manufactured by Senter Chemical Corporation, Memphis, Tenn. 38102

areas including conveyors, paying particular attention to crevices and corners to remove as much insect infested food residue as possible prior to spraying. Apply Space Kill 4 at the rate of 1 gal. per 1000 square feet of surface, using a spray that gives coarse wet droplets. Do not exceed this dosage. Repeat when necessary. Infested stored food products should be fumigated or treated by other effective methods using an approved product for this purpose.

Restaurants, Meat Packing, Food Plants: Food shall be removed from area to be treated or covered. Space Kill 4 can be dispensed through a fogger or sprayer at a rate of 1 oz. per 1000 cubic feet. Meat Inspection Division Memorandum No. 52 Insect Sprays. Apply insecticide only when plant is not in operation. All food processing surfaces shall be thoroughly cleaned after treatment and before processing starts up.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.** Harmful if swallowed. Do not apply on food. If swallowed, do not induce vomiting, get medical attention. Do not use, pour, spill, or store near heat or open flame. Do not reuse empty drum. Return to drum conditioner or destroy by perforating or crushing and bury in safe place away from water supplies. Seller's guarantee shall be limited to the terms of the label, and subject thereto. The buyer assumes any risk to persons or property arising out of use or handling and accepts the product on these conditions.
