P. O. Box 2051

Memphis, Tenn. 38101

USE DIRECTIONS: For light duty cleaning, sanitizing and deodorizing, use 2 oz. per gallon. When used for sanitization of food contact items, limit the level to 200 ppm of quaternary (8 oz. per 5 gallons). A potable water rinse is required.

For heavy duty cleaning and disinfecting and fungicidal activity against pathogenic fungi, use 4.5 oz. per gallon. For best results, use cloth or mop and apply to walls, floors and other hard surfaces.

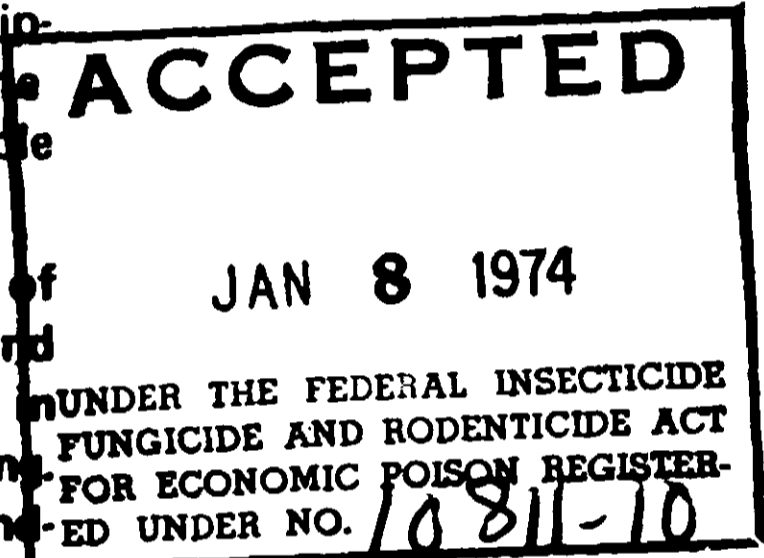

For extra heavy industrial cleaning and sanitizing, use a second application. **Do Not** mix with soap or anionic solution. It is non-corrosive in use-dilutions on inanimate hard surfaces.

PHENOL COEFFICIENTS:
