

Flea Flee

Perfumed Flea and Tick Spray

- RAPID KILL
- SEVEN DAY CONTROL
- PLEASANTLY SCENTED

by
**Mr.
Groom**

KEEP OUT OF REACH OF CHILDREN.

NEW YORK

DIRECTIONS: Remove cap and press down on button. Be sure spray is directed away from you. Hold approximately 6 to 8 inches away from dog. Brush animal's hair to a standing position (against grain) with one hand and follow closely with spray so that spray contacts the skin. Work from hindquarters of dog to head. Keep spray moving constantly. Spray only long enough to dampen hair and skin. Wet ticks thoroughly. Do not allow spray to get into eyes or on scrotum.

Spray on a basis of 10 to 20 seconds application for a 15 pound animal. Repeat as necessary, but not more often than once weekly.

For more effective control of fleas and ticks, spray directly onto collar, bedding, interior of kennel and any cracks or crevices where fleas and ticks can be found.

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin, eyes and clothing. Avoid contamination of foodstuffs. **KEEP OUT OF THE REACH OF CHILDREN.** Active ingredient* is a cholinesterase inhibitor. Atropine sulfate is antidotal.

WARNING: Content under pressure. Do not puncture. Keep away from heat. Exposure to temperatures above 120° Fahrenheit may cause bursting. Never throw container into fire or incinerator.

ACTIVE INGREDIENT:
o-Isopropoxyphenyl methylcarbamate 0.8%
INERT INGREDIENTS: 99.2%
*U.S. Patent No. 3,121,539
