STATEMENT OF PRACTICAL TREATMENT

ATROPINE IS THE EMERGENCY ANTIDOTE FOR PHOSDRIN INSECTICIDE POISONING. CALL A PHYSICIAN IN ALL CASES OF SUSPECTED POISONING.

IF SWALLOWED - Induce vomiting immediately. This may be done by introduction of 1 to 2 cups of open water, hot water, 1 tablespoon to a glass of 3% NEUTRALIZING SALT BY MOUTH TO AN UNCONSCIOUS PERSON.
IF ON SKIN - Immediately remove patient from the vicinity of the insecticide. Wash all contaminated clothing and wash skin with soap and running water.
IF IN EYES - Wash immediately with running water for at least ten minutes.

IF WARNING SYMPTOMS APPEAR - See side panel for warning symptoms. If patient is unconscious and quiet - Start artificial respiration if patient is not breathing. Transport patient immediately to nearest hospital.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

NET CONTENTS

NOTE TO PHYSICIAN

WARNING SYMPTOMS - Symptoms include: weakness, headache, dizziness, blurred vision, non-rhinitic rhinorrhea, purpura, salivation, nausea, vomiting, diarrhea, and profuse sweating.

TREATMENT - Atropine is the specific antidote for organophosphate poisoning. It is a competitive antagonist of acetylcholine at the cholinergic synapses. It is not a true anticholinergic drug. It is not a sedative and does not depress the central nervous system.

Atropine is a competitive antagonist of acetylcholine at the cholinergic synapses. It is not a true anticholinergic drug. It is not a sedative and does not depress the central nervous system. It is a competitive antagonist of acetylcholine at the cholinergic synapses. It is not a true anticholinergic drug. It is not a sedative and does not depress the central nervous system.

POISONOUS IF SWALLOWED, INHALED OR ABSORBED THROUGH SKIN. RAPIDLY ABSORBED THROUGH SKIN. REPEATED INHALATION OR SKIN CONTACT MAY, WITHOUT SYMPTOMS, PROGRESSIVELY INCREASE SUSCEPTIBILITY TO PHOSDRIN INSECTICIDE POISONING.

Do not use in areas where the use of insecticides is prohibited. Do not use in areas where the use of insecticides is prohibited.

Do not use in areas where the use of insecticides is prohibited. Do not use in areas where the use of insecticides is prohibited.
