

**Precautionary Statements**  
**Hazards to Humans & Domestic Animals**  
**Caution Harmful If Swallowed**

**ENVIRONMENTAL HAZARDS:**

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water supplies by cleaning of equipment or disposal of wastes.

Do not apply, allow to drift or drain or flush equipment onto or near croplands, lawns, trees or other desirable plants or to areas where their roots may extend. Do not contaminate irrigation ditches or water used for domestic purposes. Do not allow contact with fertilizers, insecticides, fungicides or seeds. Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Equipment which has been used for applying this product should not be used for applying insecticides, fungicides, fertilizers or other agricultural chemicals as plant injury may result.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

**PESTICIDE DISPOSAL**—Pesticide, spray mixture or rinsate that cannot be used should be disposed of according to procedures approved by Federal, State or local disposal authorities.

**CONTAINER DISPOSAL**—Under 30 gallon sizes: Triple rinse (or equivalent) and dispose of in an approved landfill or bury in a safe place. 30 gallon sizes and over: a) Reseal containers and offer for reconditioning or b) Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill or bury in a safe place.

**GENERAL**—Consult Federal, State or local disposal authorities for approved alternative procedures.

# AMMO WEED AND BRUS

**ACTIVE INGREDIENT**

Ammonium Sulfamate 48.40%

**INERT INGREDIENTS** 51.60%

Contains 5.54 Lb. Ammonium Sulfamate Per Gallon

**KEEP OUT OF REACH OF CHILDREN**  
**CAUTION**

Harmful if swallowed, irritating to skin and eyes. Do not get on skin, in eyes or on clothing. Do not breathe spray mist.

**STATEMENT OF PRACTICAL TREATMENT**

**IF SWALLOWED:** Induce vomiting and see a physician immediately.

**IF INHALED:** Move to fresh air area.

**IF ON SKIN:** Wash thoroughly with soap and water.

**IF IN EYES:** Flush with water for at least 15 minutes and see a physician.

This product is highly effective for killing undesirable woody plants and for use as a contact spray for control of weeds and grasses. Temporary non-productivity of soil may be caused by heavy applications of the product; this condition usually disappears in the "over-winter" period.

Some species of woody plants and perennial weeds are difficult to control, and retreatment may be necessary if regrowth occurs.

**IMPORTANT:** Wash sprayer thoroughly after use to remove all herbicidal solution and to reduce corrosion. Use of this product as an oil-water emulsion minimizes corrosion of equipment. If oil-water emulsion is not used, commercial equipment should be coated with an asphaltic base paint; or thoroughly wash exterior of equipment at end of each day and apply protective coating of oil each week or as often as practical. When equipment is down for week-end, wash exterior and coat with oil; for end-of-season storage, wash inside and outside and coat with oil.

## KEEP OUT OF REACH OF CHILDREN CAUTION

Harmful if swallowed, irritating to skin and eyes. Do not get on skin, in eyes or on clothing. Do not breathe spray mist.

### STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Induce vomiting and see a physician immediately.  
IF INHALED: Move to fresh air area.  
IF ON SKIN: Wash thoroughly with soap and water.  
IF IN EYES: Flush with water for at least 15 minutes and see a physician.

This product is highly effective for killing undesirable woody plants and for use as a contact spray for control of weeds and grasses. Temporary non-productivity of soil may be caused by heavy applications of the product; this condition usually disappears in the "over-winter" period.

Some species of woody plants and perennial weeds are difficult to control, and retreatment may be necessary if regrowth occurs.

**IMPORTANT:** Wash sprayer thoroughly after use to remove all herbicidal solution and to reduce corrosion. Use of this product as an oil-water emulsion minimizes corrosion of equipment. If oil-water emulsion is not used, commercial equipment should be coated with an asphaltic base paint; or thoroughly wash exterior of equipment at end of each day and apply protective coating of oil each week or as often as practical. ## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner consistent with its labeling.

Brush Control — Right of Ways — Roadsides  
Drainage Ditches — Range Lands — Pastures

AMMO-SOL applied as a foliar spray, is highly effective for killing most woody plants, including hardwood and coniferous species such as alder, ash, birch, cedar, elm, gum, hickory, maple, oak, pine, and willow.

### FOLIAGE SPRAY APPLICATION

Prepare spray (water solution) and apply any time after brush has reached the full-leaf stage until foliage begins to discolor, preferably during periods of high temperatures and high humidity. Apply as a full-coverage spray to foliage, stems, limbs, and base of brush, thorough coverage is essential for best results. In roadside applications on tall, dense brush, it is often necessary to spray from field side as well as road side. Spraying away from crops planted close to right of ways will aid in preventing contact of crops with spray or drift; coarse sprays are less likely to drift. The product is not volatile.

### SPRAY PREPARATION

Water Solution—For Each 100 Gals. of Spray: Use 10 gals. product with hydraulic equipment; use 18 to 72 gals. with air blast equipment.

## WEED AND GRASS CONTROL

Driveways — Fence Rows — Industrial Sites — Tennis Courts

AMMO-SOL is an effective contact spray for control of: Woody Perennials such as poison ivy, poison oak, and poison sumac; Perennials such as leafy spurge, bitter dock, goldenrod, perennial ragweed, milkweed, and blueweed, and annuals such as crabgrass, broomweed, chickweed, cocklebur, Jimson weed, lambs-quarters, larkspur, prickly lettuce, ragweed, and shepherd's-purse.

Thoroughly wet foliage and stems of undesired vegetation. The degree of control and duration of effect will vary with weed species, rainfall, temperature, and other conditions.

INDUSTRIAL SOLVENTS makes no warranty of merchantability, fitness for any purpose, or otherwise, express or implied, concerning this product or its use, which extend beyond the statements on this label.
