DIRECTIONS FOR USE

General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

BEST AVAILABLE COPY

This product is specifically designed as a mosquito breeding control. It is effective against mosquito larvae in standing water, temporary rain pools and lag ponds.

Apply IND-SOL 80 to the water surface by aircraft or ground spray equipment at the rate of 3 gallons or less per acre, assuring an even coverage on the entire area. In severe cases, such as highly polluted waters or waters of high organic content rates may be increased up to a maximum of 5 gallons per acre.

INDUSTRIAL SOLVENTS makes no warranty of merchantability, fitness for any purpose, or otherwise, express or implied, concerning this product or its use, which extend beyond the statements on this label.
