

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

WARNING: May be fatal if swallowed

Do not apply or allow to drift to areas occupied by unprotected humans or beneficial animals. Wash with soap and water after handling and before eating or smoking — Wear clean clothing — Store away from domestic animals and children. Avoid contamination of food and feed.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Birds feeding on treated areas may be killed. Keep out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Do not pour, spill or store around heat or open flame.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

PESTICIDE DISPOSAL — Pesticide, spray mixture or rinse that cannot be used should be disposed of according to procedures approved by Federal, State, or Local disposal authorities.

CONTAINER DISPOSAL — Under 30 gallon sizes: Triple rinse (or equivalent) and dispose of in an approved land fill or bury in a safe place. 30 gallon sizes and over: a) Reseal containers and offer for reconditioning or b) Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill or bury in a safe place.

GENERAL — Consult Federal, State or Local disposal authorities for approved alternative procedures.

EPA Reg. No. 10827-45
EPA Est. No. 10827-TX-1

FORMULA 110

Insecticide Concentrate

For professional use only. May be fatal if swallowed, inhaled or absorbed through skin.
Water Emulsifiable Oil Soluble Insecticide. Kills resistant mosquitoes and flies.

ACTIVE INGREDIENTS	By Wt.
Heavy aromatic Naphtha	86.75%
Methoxychlor Technical*	7.50%
2,2-Dichlorovinyl Dimethyl Phosphate and related compounds**	.75%
INERT INGREDIENTS	5.00%
TOTAL	100.00%

*Equivalent to 6.6% 2,2-bis (p-methoxyphenyl)-1, 1, 1-trichloroethane and 0.9% other isomers and related compounds

**Consists of 0.70% 2, 2-Dichlorovinyl dimethyl phosphate and 0.5% Related Compounds.

KEEP OUT OF REACH OF CHILDREN WARNING

MAY BE FATAL IF SWALLOWED, INHALED OR ABSORBED THROUGH THE SKIN

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED — Call a physician immediately. Gastric lavage is indicated if material was taken internally. DO NOT INDUCE VOMITING unless other treatment is not available. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

IF INHALED — Remove victim to fresh air. Apply respiration if indicated.

IF ON SKIN — Wash contaminated skin with soap and water.

IF IN EYES — Flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

NOTE TO PHYSICIAN — If symptoms of cholinesterase inhibition are present, Atropine sulfate is antidotal and may be administered in conjunction with 2-PAM.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

MOSQUITOS AND FLIES: The surface deposit of a mixture of one gallon of this concentrate with gallons of water or fuel oil will aid in the control of flies and mosquitos. Thoroughly wet the surface where flies breed or alight. Apply 1 diluted gallon for each 1000 sq. ft. of area to be treated on painted surfaces. Apply 2 diluted gallons for each 1000 sq. ft. of un-painted surfaces. For mosquitos spray undergrowth near stagnant water, low drainage areas and refuse dumps where water is trapped. Discard tires, tin cans and other receptacle-like type. Repeat when needed.

FOR PROFESSIONAL USE ONLY: This concentrate is a product for use by experienced personnel in the control of mosquitos and flies, which have developed resistance to chlorinated insecticides. Do not re-use container.

NOTICE: KEEP FROM FREEZING. If this product is stored in freezing or cold weather, it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.

WARRANTY STATEMENT

Industrial Solvents makes no warranty of merchantability, fitness for any purpose, or otherwise express or implied, concerning this product or its use, which extend beyond the statement on this label.

ACCEPTED
JUL 29 1980
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

MOSQUITOS AND FLIES: The surface deposit of a mixture of one gallon of this concentrate with ten gallons of water or fuel oil will aid in the control of mosquitoes. Thoroughly wet the surfaces to be treated or alight. Apply 1 diluted gallon for each 1000 sq. ft. of area to be treated on vertical surfaces. Apply 2 diluted gallons for each 1000 sq. ft. of horizontal surfaces. For mosquitoes, apply to brushwood near stagnant water, low damp areas and other traps where water is trapped in brush, tires, tin cans and other receptacles of water. Repeat when needed.

FOR PROFESSIONAL USE ONLY: This concentrate is a product for use by experienced personnel to aid in the control of mosquitos and flies, which have developed resistance to chlorinated insecticides. Do not re-use container.

NOTICE: KEEP FROM FREEZING. If this product is stored in freezing or cold weather, it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.
