

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if swallowed. Do not apply to food crops. Keep animals off treated areas.

ENVIRONMENTAL HAZARDS. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

The granular product is for dry application on non-cropland where bare ground is desired. It is an effective herbicide for the control of many annual and perennial grasses and weeds. Effects are slow to appear and may not show until the chemical has been carried into the root zone by moisture. The degree of control obtained and length of control will vary with the amount of chemical applied, soil type, rainfall and other conditions. This product is not corrosive to metals and non-volatile.

IMPORTANT. Do not apply on or near valuable woods or herbaceous plants or on areas where their roots may extend because of possible injury to such plants. Thoroughly clean equipment with a suitable chemical cleaner before using for other purposes. Do not use same spreading equipment for other pesticides. Do not store herb fertilizer, seeds, insecticides or fungicides. Do not use on lands to be used for subsequent cropping.

STORAGE AND DISPOSAL

PROHIBITIONS. Do not contaminate water, food, or feed by storage or disposal. Clean thoroughly after use. Do not reuse empty container.

PESTICIDE DISPOSAL. Pesticide label instructions apply. Do not repackage and do not reuse containers. Do not use for purposes not intended. Do not use for disposal of other pesticides or their containers.

CONTAINER DISPOSAL. Do not reuse. Containers may be recycled if approved for pesticide containers.

GENERAL. Consult federal, state or local authorities for approved alternative procedures such as incineration.

IND-TEX VEGETATION AND WEED KILLER

10827-48

IMPORTANT. Do not use on lawns, walks, driveways, tennis courts, or similar areas.

DIRECTION

It is a violation of Federal law to use this product in a manner inconsistent with its label.

Apply this product just before or just after active growth of weeds to be controlled. If necessary, after treatment to be controlled, water should be applied into the root zone of weeds. If weeds are present, results will be improved if weeds are removed before treatment. Do not apply to bare ground. Any of the usual spreading materials should be acceptable for this product. Be sure to check calibration.

GENERAL WEED CONTROL. For an extensive weed control on non-cropland areas, rights of way, lumber yards, pile yards, industrial sites and tank farms.

For control of perennial grasses such as duckweed, grass, etc., apply 25 to 250 pounds per acre. For control of annual grasses, Bermuda, etc., apply 10 to 20 pounds per acre. For control of broadleaf weeds, apply 10 to 20 pounds per acre. For control of other weeds, apply 10 to 20 pounds per acre.

For control of weeds that grow in grass, apply 10 to 20 pounds per acre. For control of weeds that grow in bare ground, apply 10 to 20 pounds per acre. For control of weeds that grow in other areas, apply 10 to 20 pounds per acre.
