

Precautionary Statements
Hazards to Humans & Domestic Animals
Caution Harmful If Swallowed

ENVIRONMENTAL HAZARDS

Keep out of lakes, streams, or ponds. Do not contaminate water supplies by cleaning of equipment or disposal of wastes.

NOTE: This material is non-selective and effects all types of vegetation. Extreme care should be exercised in its use to prevent killing lawns, shrubs, tree and other valuable plants. This includes the treatment of areas which may be underlaid by tree roots.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

PESTICIDE DISPOSAL Pesticide spray mixture or rinsate that cannot be used should be disposed of according to procedures approved by Federal, State or local disposal authorities.

CONTAINER DISPOSAL— Under 30 gallon sizes: Triple rinse (or equivalent); and dispose of in an approved landfill or bury in a safe place. **30 gallon sizes and over:** a) reseal containers and offer for reconditioning or b) Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill or bury in a safe place.

GENERAL — Consult Federal, State or local disposal authorities for approved alternative procedures.

VEG-A-SOL

Non-Selective -- Non-Flammable HERBICIDE

For Non-Crop Use Only

ACTIVE INGREDIENTS

Sodium Chlorate 18.00%
 Sodium Metaborate 6.00%

INERT INGREDIENTS

TOTAL 76.00%

100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION

Harmful if swallowed, irritating to skin and eyes. Do not get on skin, in eyes or on clothing. Do not breathe spray mist.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Induce vomiting and see a physician immediately.

IF INHALED: Move to fresh air area.

IF ON SKIN: Wash thoroughly with soap and water.

IF IN EYES: Flush with water for at least 15 minutes and see a physician.

See side panels for additional precautions.

EPA Reg. No. 10827-50

EPA Est. No. 10827-TX-1

DIRECTIONS FOR USE

It is a violation of Federal Law to use this material in a manner inconsistent with its labeling.

KILLS

Johnson grass, Quack grass, Bermuda grass, Poison Oak, Bindweed, Canada thistle, and many other grasses and weeds. This material is for vegetation control on non-crop areas: rows around buildings, along roads, right-of-ways, and other similar areas.

Annual Weeds:

Apply 1 gallon VEG-A-SOL (diluted with 150 to 200 gallons of water) per 150 to 200 square feet of vegetation. Thoroughly wet with a hand sprayer, all parts of the plant, particularly the growing tips.

Perennial Weeds:

For the best results, treat plants during the early stage or when nearing maturity. Best results are obtained with spring application. A single application is not recommended. Apply 1 to 2 gallons VEG-A-SOL per 100 square feet of deep rooted weeds and grass, such as Johnson grass, Bindweed and Quack grass. Retreatment may be necessary to insure adequate control of certain hard to kill weeds.

NOTICE

KEEP FROM FREEZING. If this product is exposed to freezing weather it may separate. This will not harm the performance. Before use, allow to return to room temperature and stir thoroughly.

INDUSTRIAL SOLVENTS makes no warranty of performance for any purpose, or otherwise, express or implied, which extend beyond the above.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with the directions.

KILLS

Johnson grass, Quack grass, Bermuda grass, Poison Ivy, Poison Oak, Bindweed, Canada Thistle, Sand Burr and many other grasses and weeds. Toxic to all types of vegetation. This material is recommended for vegetation control in non-crop areas such as, fence-row, around buildings, along roadsides, power lines, right of ways, and other similar waste areas.

Annual Weeds:

Apply 1 gallon VEG-A-SOL (diluted with up to 10 gallons of water) per 150 to 200 square feet when plants are young. Thoroughly wet with a sprayer or sprinkling can, all parts of the plant, particularly the growing tips.

Perennial Weeds:

For the best results, treat plants during their dormant stage or when nearing maturity. Good results are obtained with spring application, but summer applications are not recommended. Apply by spraying 1 to 2 gallons VEG-A-SOL per 100 square feet. For deep rooted weeds and grass, such as Bermuda, Johnson, Bindweed and Quack grass the heavier rate is recommended. Retreatment may be necessary to secure adequate control of certain hard-to-kill weeds.

NOTICE

KEEP FROM FREEZING. If this product is stored in cold or freezing weather it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.

INDUSTRIAL SOLVENTS makes no warranty of merchantability, fitness for any purpose, or otherwise, express or implied, concerning this product or its use, which extend beyond the statements on this label.
