

Precautionary Statements

Caution Harmful If Swallowed

ENVIRONMENTAL HAZARDS

Do not apply to waterways or to areas adjacent to water. Do not apply to areas where waterfowl, fish, or other aquatic life may be present. Do not apply to areas where bees are present. Do not apply to areas where birds are present. Do not apply to areas where mammals are present. Do not apply to areas where plants are present.

PHYSICAL OR CHEMICAL HAZARDS

Do not use in confined spaces. Do not use in areas where fire or explosion is a hazard.

PROM-I-SOL

**FOR NON-SELECTIVE WEED CONTROL ON
NON-CROP AREAS**

**AROUND BUILDINGS, STORAGE AREAS, FENCES, MACHINERY,
STORAGE TANKS, RECREATIONAL AREAS, ROADWAYS,
AIRPORTS, PIPELINES, INDUSTRIAL SITES AND SIMILAR AREAS**

CONTAINS PRAMITOL®

ACTIVE INGREDIENT

PRAMITOL (4-chlorophenylacetic acid) 40.0%
K.P.H. 4.0%
INERT INGREDIENTS 56.0%

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

STATEMENT OF PRACTICAL TREATMENT

DIRECTIONS FOR USE

Read the label on the container to use this product in accordance with the law and the manufacturer's instructions.

IMPORTANT: Read the entire Directions for Use and the Label and Warranty before using this product. Do not use this herbicide if the water is over 1000 ppm of salt or soil salinity is above 4.0. For more contact action, apply this herbicide in applications made during late winter or early spring when growth is succulent. For best results, use 2 gallons per 1000 sq. ft. of water. For control of weeds and grasses such as crabgrass, use 2 to 4 gallons per 1000 sq. ft. Although this herbicide has considerable contact activity, much of its activity is systemic. Control is delayed until the weeds have grown.

Do not use in areas where high winds are blowing. Do not use in areas where there is a possibility of frost.

DO NOT USE AT TEMPERATURES ABOVE 32°F. NOTICE: Since weather and other conditions may vary, the product may be used with varying results. The Seller makes no kind of express or implied, or other warranty on this product. The User assumes all risk of handling of this material not in accordance with the directions given herewith.

STATEMENT OF PRACTICAL TREATMENT

Apply Prom-I-Sol to weeds in non-crop areas around buildings, storage areas, fences, machinery, storage tanks, recreational areas, roadways, airports, pipelines, industrial sites and similar areas. Apply Prom-I-Sol to weeds in non-crop areas around buildings, storage areas, fences, machinery, storage tanks, recreational areas, roadways, airports, pipelines, industrial sites and similar areas.

DIRECTIONS FOR USE

Read the label and directions for use. Do not use this product in a manner inconsistent with the labeling.

IMPORTANT: Read the label directions for use and the directions for use and warning before using this Product. Do not mix Prom-I-Sol with this herbicide mixed in 10 parts of water with 1 part of soil surface. Then apply Prom-I-Sol to weeds in contact action. Best results are obtained when applications are made during or soon after the first rains. Do not apply to growing crops. Where vegetation is established, use 4 gallons of herbicide per 1000 sq. ft. of water per 1000 sq. ft. For control of hard-to-kill weeds such as Johnsongrass, use 4 gallons per 1000 sq. ft. of water per 1000 sq. ft. For control of hard-to-kill weeds such as Johnsongrass, use 4 gallons per 1000 sq. ft. of water per 1000 sq. ft. For control of hard-to-kill weeds such as Johnsongrass, use 4 gallons per 1000 sq. ft. of water per 1000 sq. ft.

TEMPERATURES ABOVE 90°F

Do not use Prom-I-Sol in areas where temperatures are above 90°F. Do not use Prom-I-Sol in areas where temperatures are above 90°F. Do not use Prom-I-Sol in areas where temperatures are above 90°F.
