Precautionary Statements

Hazards to Humans & Domestic Animals

Caution Harmful If Swallowed

Irritating to skin and eyes. Do not get on skin, in eyes or on clothing. Do not breathe spray mist.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not apply, allow to drift or drain or flush equipment onto or near croplands, lawns, trees or other desirable plants or to areas where their roots may extend. Do not contaminate irrigation ditches or water used for domestic purposes. Do not allow contact with fertilizers, insecticides or seeds. Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Equipment which has been used for applying this product should not be used for applying insecticides, fungicides, fertilizers or other agricultural chemicals as plant injury may result.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
PESTICIDE DISPOSAL: Pesticide, spray mixture or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.
CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling or reconditioning, or disposal of in a sanitary landfill, or by other approved State and local procedures.

LIQUID WEED KILLER

CONCENTRATE

BEST DOCUMENT AVAILABLE

GENERAL INFORMATION

This product is a water soluble liquid to be water and applied as a spray on non-crop. It is an effective general herbicide for control of annual and perennial weeds and is particularly effective for control of perennial grasses. Effects appear and may not become apparent until rain has been carried into the root zone of weeds by moisture. The degree of control and effect will vary with the amount of chemical, soil type, rainfall and other conditions.

This product, after mixing with water, is non-flammable and non-corrosive to metal. Do not use with aluminum sprayers.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its label.

To control annual weeds and grasses such as ryegrass, wild oats, crabgrass, cheatgrass, ragweed, lambsquarters, puncturevine, and turkey mullein mix one gallon of concentrate with twelve gallons of water and apply five gallons diluted spray per 1000 square feet.

To control perennial weeds and grasses such as bromegrass, bahiagrass, bluegrass, redtop, quackgrass, broomesedge, aster, dandelion, goldenrod, plantain and wild carrot, mix one gallon of the concentrate with twelve gallons of water and apply to 1000 sq. ft.

To control hard-to-kill perennial weeds such as Johnsongrass, bermudagrass, dallisgrass, vaseygrass, saltgrass, bouncingbet, bracken fern and horsetail, mix one gallon with twelve gallons water and apply to 500

ACTIVE INGREDIENTS:	
Bromacil (5-bromo-sec-butyl-6-methyluracil)	4.60%
INERT INGREDIENTS:	95.40%
TOTAL:	100.00%

Contains .39 lbs. Bromacil per gallon.

KEEP OUT OF REACH OF CHILDREN

CAUTION

Harmful if swallowed, irritating to skin and eyes. Do not get on skin, in eyes or clothing. Do not breathe spray mist.

STATEMENT OF PRACTICAL TREATMENT

- IF SWALLOWED: Induce vomiting and see a physician immediately.
- IF INHALED: Move to fresh air area.
- IF ON SKIN: Wash thoroughly with soap and water.
- IF IN EYES: Flush with water for at least 15 minutes and see a physician.

LIQUID WEED KILLER

CONCENTRATE

BEST DOCUMENT AVAILABLE

GENERAL INFORMATION

This product is a water soluble liquid to be mixed with water and applied as a spray on non-cropland areas. It is an effective general herbicide for control of many annual and perennial weeds and is particularly useful for control of perennial grasses. Effects are slow to appear and may not become apparent until the chemical has been carried into the root zone of the weeds by moisture. The degree of control and duration of effect will vary with the amount of chemical applied, soil type, rainfall and other conditions.

This product, after mixing with water, is non-volatile, non-flammable and non-corrosive to metals except aluminum. Do not use with aluminum spray nozzles.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To control annual weeds and grasses such as foxtail, ryegrass, wild oats, crabgrass, cheatgrass, bromegrass, ragweed, lambsquarters, puncturevine, orchardgrass and turkey mullein mix one gallon of concentrate with twelve gallons of water and apply five gallons of the diluted spray per 1000 square feet.

To control perennial weeds and grasses such as smooth brome, bahiagrass, bluegrass, redtop, purpletop, quackgrass, broomsedge, aster, dandelion, dog fennel, goldenrod, plantain and wild carrot, mix one gallon of the concentrate with twelve gallons water and apply to 1000 sq. ft.

To control hard-to-kill perennial weeds and grasses, such as Johnsongrass, bermudagrass, dallisgrass, nut-sedge, vaseygrass, saltgrass, bouncingbet, dogbane, bracken fern and horsetail, mix one gallon concentrate with twelve gallons water and apply to 500 sq. ft.

ACTIVE INGREDIENTS:	
Bromacil (5-bromo-sec-butyl-6-methyluracil)	4.60%
INERT INGREDIENTS:	95.40%
TOTAL:	100.00%

Contains .39 lbs. Bromacil per gallon.

KEEP OUT OF REACH OF CHILDREN CAUTION

Harmful if swallowed, irritating to skin and eyes. Do not get on skin, in eyes or clothing. Do not breathe spray mist.
