# CLEANER • DISINFECTANT • DEODORIZER • FUNGICIDE

# ACTIVE INGREDIENTS:

n-Alkyl (C<sub>12</sub> 50%, C<sub>14</sub> 30%, C<sub>14</sub> 17%, C<sub>15</sub> 3%, dimethyl ethylbenzyl ammonium chloride n-Alkyl (C<sub>14</sub> 60%, C<sub>14</sub> 30%, C<sub>12</sub> 5%, C<sub>15</sub> 5%) dimethyl benzyl ammonium chloride INERT INGREDIENTS:

# DANGER KEEP OUT OF REACH OF CHILDREN

First Aid and Additional Precautions on right panel

Those hard surfaces in hospitals that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing two ounces of INTEX 8062 per gallon of water, then rinse with water before final disinfecting.

# DANGER

Keep out of reach of children. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. Harmful or fatal if swallowed. Avoid contamination of food.

# FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, do not induce vomiting. Drink large quantities of nonalcholic fluid, citrus juices. or dijuted vinegar and call a physician immediately.

Rinse empty container thoroughly with water and discard it

1.6°。 1.6?。 96.8?。 100.0°。 Steri Plus 256 Disinfectant is a balanced formulation containing ECS's true odor counteractants, a nonionic synthetic detergent, dual quaternary ammonium chloride germicides, an organic chelating agent and alkaline builders... for effective cleaning, disinfecting and odor control in one labor saving operation. Steri Plus 256 Disinfectant helps in the control of cross-infection from environmental hard surfaces.

Steri Plus 256 Disinfectant is excellent for washing hard surfaces such as floors and walls. porcelain, tile, glass, stainless steel and chrome. It will not adversely affect painted, varnished or lacquered surfaces. It is particularly suitable for linoleum, rubber, cork, vinyl and asphalt tile floors, marble and terrazzo, and may be used safely on sealed wood.

As a detergent, Steri Plus 256 Disinfectant loosens soil through a combination of wetting and penetrating action, suspends insoluble matter in solution and emulsifies oil and grease. Steri Plus 256 Disinfectant leaves surfaces spot free and film free.

Steri Plus 256 Disinfectant is recommended for hospitals, nursing homes, mental institutions, schools, veterinary establishments, hotels and motels ... for disinfecting floors, and walls, operating rooms, kitchens and rest rooms, locker rooms, offices . . . for use on sink tops, garbage pails, telephones and bed pans.

Steri Plus 256 Disinfectant is an effective sanitizer when used at a quaternary level of 200 ppm on previously cleaned food processing and food contact items. This concentration is obtained by diluting one ounce of Steri Plus 256 Disinfectant in five gallons of water. A potable water rinse is required following such use.

Steri plus 256 Disinfectant provides an air-refreshened effect through odor counteraction. It does not merely mask odors.

EPA Registration No. 10854-7 EPA Establishment No. 10854-MD-1 **To Disinfect:** 

To Sanitize: Use one (1) ounce of Steri Plus 256 Disinfectant per five gallons of water on previously cleaned food equipment or food contact items. This must be followed by a rinse with potable water.

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

# **First Aid:**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Call a physician immediately.

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed. Rinse empty container thoroughly with water and discard.

# **DIRECTIONS FOR USE**

Use 1/2 ounce of Steri Plus 256 Disinfectant per gallon of water. Apply with mop, sponge or cloth to floors, walls and other hard surfaces. A precleaning step is recommended if the surface contains heavy soil or organic matter.
