DIRECTIONS FOR USE

To Disinfect:

Use one ounce of **STERI PLUS 128 DISINFECTANT** per gallon of water. Apply with mop, sponge or cloth to floors, walls and other hard surfaces. At this level, **STERI PLUS 128 DISINFECTANT** is pseudomonacidal and fungicidal against pathogenic fungi. A precleaning step is recommended if the surface contains heavy soil or organic matter.

To Sanitize:

Use one ounce of **STERI PLUS 128 DISINFECTANT** per 3½ gallons of water on previously cleaned food equipment or food contact items. This must be followed by a rinse with potable water.

Danger: Keep Out of Reach Of Children

Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

First Aid:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Call a physician immediately.

Note to Physician:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsions may be needed.

Rinse empty container thoroughly with water and discard.

STERI PLUS 128 DISINFECTANT is a balanced formulation combining ECS's true odor counteractants, a nonionic synthetic detergent, dual quaternary ammonium chloride germicides, an organic chelating agent and alkaline builders for effective disinfecting, cleaning and odor control in one labor saving operation. **STERI PLUS 128 DISINFECTANT** helps in reducing the hazard of cross-infection from environmental hard surfaces.

STERI PLUS 128 DISINFECTANT is excellent for washing hard surfaces such as floors and walls, porcelain, tile glass, stainless steel and chrome. It will not adversely affect painted, varnished or lacquered surfaces. It is particularly suitable for linoleum, rubber, cork, vinyl and asphalt tile floors, marble and terrazzo, and may be used safely on sealed wood.

As a detergent, **STERI PLUS 128 DISINFECTANT** loosens soil through superior wetting and penetrating action, suspends insoluble matter in solution and emulsifies oil and grease. **STERI PLUS 128 DISINFECTANT** leaves surfaces spot free and film free.

STERI PLUS 128 DISINFECTANT is recommended for hospitals, nursing homes, mental institutions, schools, veterinary establishments, hotels and motels . . . for disinfecting floors and walls, operating rooms, kitchens and rest rooms, locker rooms, offices . . . for use on sink tops, garbage pails, telephones and bed pans.

STERI PLUS 128 DISINFECTANT may be used for sanitizing previously cleaned food equipment or food contact items. Where this is done, follow by a potable water rinse. See instructions under Directions for Use.

STERI PLUS 128 DISINFECTANT provides an air-refreshed effect through odor counteraction. It does not merely mask odors.
