### DIRECTIONS FOR USE

Pour recommended amount of this material into spray nozzle. Keep agitator running during application. This mixture does not mix readily, but tends to separate on result. DO NOT combine this material with other use of the material as the combination has not been tested.

### OBSERVE THE FOLLOWING USE PRECAUTIONS

DO NOT use this product on feed or to be fed to dairy animals or to animals being raised for slaughter.

This product is toxic to fish and other wildlife. Birds feeding on treated areas may be killed. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DO NOT use on cucurbits (cantaloupe, cucumber, etc.). Observe restrictions given on the label for cucurbits.

The Federal Food and Drug Administration has set official tolerances for certain pesticide residues on crops that residues on food and forage crops will not exceed established tolerances. Use only on the commodities listed and DO NOT apply to other commodities.

Contact your State Agricultural Experiment Station for information on a registration for the proper use of this material on commodities which will be used for human consumption.

### RECOMMENDATIONS

Apply 100-125 gallons of spray mixture per acre of water. Do not apply to water less than 100-125 gallons per acre.

Apply 10 gallons of spray mixture per acre of water. Do not apply to water less than 10 gallons per acre. Do not apply to water less than 10 gallons per acre.

DO NOT apply to water less than 10 gallons per acre for slaughter or other uses.
