

DIRECTIONS: Clean toilet bowl, and especially under the rim, thoroughly and flush. Then, remove paper shield from cap of FC jar; place jar rightside up on the bottom of the water tank underneath the tank float.

FC flushes clean . . . automatically cleans rust, stains and minerals from the toilet bowl every time it is flushed. Deodorizes and sanitizes toilet bowl water, removing foreign odors from the bathroom area. Helps clean chase and jets, assuring more thorough flushing action. Will not injure fixtures or septic systems.
