perforating or crushing and burying in a safe place.

U. S. D. A. reg. #10881-4

Sold by: NATIONAL LIQUID FERTILIZER CORPORATION
3724 WEST 38TH STREET CHICAGO, ILL. 60632

GENERAL INFORMATION: "ENVY" Weed and Brush Sanitation Solution III is a water solution containing Ammonium Sulfamate and Surfactant. The application of this product is an effective means of controlling undesired vegetation in areas that border valuable plants. When applied as directed "ENVY" III may be used in close proximity to valuable plants, trees and shrubbery without injury.

Control vegetation and improve appearance in such areas as: Around the base of fire plugs, guy wires, under shrubbery, under fences, along sidewalks, around the base of trees, along shrubbery borders, along buildings, under parking lot guardrails and in drainage ditches.

The vegetation control of "ENVY" Weed and Brush Sanitation Solution III is by action on contact. Regrowth is from root systems of perennials and germinating seeds in the soil. Temporary non-productivity of soil may be caused by heavy application of this product. This condition usually disappears in the "over-winter" period.

IMPORTANT: Wash sprayer thoroughly after use to remove all herbicidal solution and to reduce corrosion. When equipment is down for week-end, wash exterior and coat with oil; for end-of-season storage, wash inside and outside and coat with oil.

CAUTION: May cause Skin Irritation
Avoid prolonged Contact With Skin
Keep Out of Reach of Children
In Case of Contact, Wash off With
Plenty of Water

DIRECTIONS: No mixing or dilution required. Apply "ENVY" Weed and Brush Sanitation Solution as it is. Spray undesirable foliage to thoroughly wet stems and leaves. (Caution: Do not spray or wet foliage of desired plants. Coarse sprays are less likely to drift)

Spray as often as necessary, usually 2 or 3 times a year. Frequency of application will depend upon type of vegetation, length of growing season, rainfall and temperature.

"ENVY" Weed and Brush Sanitation Solution III also controls poison ivy, poison oak, woody plants and many vines. For best results, spray when temperature is above 70 F.

IMPORTANT: "ENVY" Weed and Brush Sanitation Solution III is nonvolatile and nonflammable under recommended conditions of use. Do not apply to foliage of valuable plants. It is corrosive to most metals. Do not contaminate water used for irrigation or domestic purposes.
