

DIRECTIONS FOR USE IN SWIMMING POOLS:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Initial Dose: add 1 gallon **Algaecide II** swimming pool algaecide to 25,000 gallons of pool water.

Maintenance Dose: add 1 quart **Algaecide II** swimming pool algaecide to 25,000 gallons of pool water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of **Algaecide II** for each 5,000 gallons of fresh make up water added per week.

When swimming season is over, add 1 gallon of **Algaecide II** to 25,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

When **Algaecide II** is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium laundatum* (black algae), *Phormidium retzii* (square D algae), *Cyrtosira versicolor* (blue-green) and other swimming pool algae.

Algaecide II is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other water-treating chemicals. **Algaecide II** works best when added by itself directly to pool water. **Algaecide II** at use dilution is non-corrosive to man-made surfaces.

DIRECTIONS FOR USE IN

SPAS/WHIRLPOOLS/HOT TUB BATHS

Initial Dose: Add 25.6 ounces of **Algaecide II** Swimming Pool Algaecide per 5,000 gallons of water. Initial dose is used upon filling of Spa/Whirlpool/Hot Tub Bath.

Maintenance Dose: Add 6.4 ounces of **Algaecide II** Swimming Pool Algaecide per 5,000 gallons of water. Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or Spa/Whirlpool/Hot Tub Bath has unusually heavy use, add maintenance dose more frequently.

Drain and clean Spa/Whirlpool/Hot Tub Bath at least once a month or as needed depending on bather load.

KEEP OUT OF REACH OF CHILDREN

DANGER

See side panel for additional precautionary and practical treatment statements.

SURPASS CHEMICAL CO., INC.
1254 BROADWAY, ALBANY, NY 12204 518-434-8101

NET CONTENTS 1 Gallon

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER

KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Possible mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock as well as oxygen and measures to support breathing manually or mechanically may be needed. If persistent convulsions may be treated by the cautious intravenous injection of a short-acting barbiturate drug.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, rivers, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, please contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS:

Do not use or store near heat or open flame.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

STORAGE: Store in a dry place below a temperature than 60°F for higher than 120°F.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or empty container violates Federal Law. If these wastes cannot be disposed of by usual recycling or label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse empty container with water. Return metal drum to manufacturer or producer and dispose of in a sanitary landfill, or by other approved by State or local authorities. Plastic containers may be disposed of in a sanitary landfill, or by other approved by local authorities, by burning if burned in a controlled manner.

Attention: Richard Thompson
Counsel

Gentlemen:

Subject: Sanitizer Concentrate Formula 113
EPA Registration No. 10887-7
Your Submission Dated May 12, 1988
EPA Received Date May 31, 1988

A review of your amendment package follows.

1. Submit a revised Confidential Statement of Formula (CSF) incorporating the following revisions.
 - a. Revise Block #4 to read "10887-7." Note this product was registered in March 1987.
 - b. You have the wrong registration number (Block #12) for the proposed alternate source. Note: No review can begin until the correct number is declared.
 - c. Declaring the actual chemical names is unnecessary. Note: Declaring only the trade name - supplier - EPA Registration Number is sufficient information to begin review.
 - d. Just a reminder to redate and initial the CSF when you resubmit.
2. This product was registered. See our letter dated March 30, 1987. When a product is registered, do not use file symbols. Use the assigned EPA Registration Number on all the correspondence. Delays can be avoided.

When you resubmit, please use EPA Registration No. 10887-7 for this product: Sanitizer Concentrate Formula 113. Please do not use the old label.

3. The labeling you submit must also contain, provided you make the following label revisions to reflect the changes to the product's conditions:

a. Revise the statement:

The product is effective against the virus
Adhesive Amendment of the Federal Food, Drug,
and Cosmetic Act for use as a sanitizing
solution at 200 ppm active level without
requiring a final potable water rinse.

Notes: References to clearances are no longer permitted.

b. Revise the statement:

At this level, no potable water rinse is
required.

to read:

No potable water rinse is required.

c. Revise the statement:

Measures against circulatory shock,
respiratory depression and convulsion
may be needed.

- d. Revise "Sold by" to read "Manufactured by" or just delete
the words "Sold by."

Your release for shipment of the product bearing the amended
labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.
