Enclosure

To sanitize mobile items (such as drinking glasses, eating utensils), immerse in 200ppm solution for at least 60 seconds making sure to immerse completely. Remove and let air dry. Prepare a fresh solution daily or more frequently as soil is apparent.

This product is a heavy duty cleaner, disinfectant and sanitizer designed for kitchens, food processing plants and light applications where heavy duty cleaning is of prime importance. When used as directed, this product is formulated to disinfect inanimate hard surfaces such as walls, floors, sink tops, tables, chairs and telephones. For larger areas, such as restrooms, this product is designed to provide both heavy duty cleaning and disinfecting. This product is designed to aid in minimizing the hazard of cross contamination in areas where heavy duty cleaning is necessary.

In addition, this product sanitizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, and any other areas which are prone to odors caused by microorganisms.

DISINFECTANT: At 1:5 dilution per gallon dilution, this product exhibits effective disinfectant activity against the organisms: *Salmonella choleraesuis*, *Staphylococcus aureus* and *E. Coli*. *Escherichia coli* have demonstrated that this product is an effective bactericide and fungicide, in the presence of organic soil (5% beef serum).

SANITIZATION: When used for sanitization of previously cleaned food equipment or food contact items, the active quatamine to 200ppm. NO RINSEABLE WATER RINSE is required.

This product is an effective sanitizer when diluted in water up to 500ppm hardness (CaCO₃).

DIRECTIONS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product has been designed specifically for processing plants and other non-food contact areas. It is of prime importance to use this product as directed.

DISINFECTANT: To disinfect hard inanimate surfaces such as walls, floors, table tops, apply solution with mop, cloth, sponge or mechanical sprayer to all surfaces thoroughly. Allow to remain wet 5 minutes and then let air dry.

DILUTION RATES: General Disinfection: 1:5 dilution of this product per gallon of water.

For heavily soiled areas, a pre-cleaning step is advised. Prepare a fresh solution for each use.

SANITIZATION: To sanitize previously cleaned food non-porous food contact surfaces, use 200ppm active quatamine solution by application of this product to 5 gallons of water.

To sanitize inanimate items (such as tanks, chutes, blocks, counter tops), flood the area with 200ppm solution or apply with a cloth or sponge, making sure all surfaces completely for at least 60 seconds. Dry. Prepare a fresh solution for each use.
