

**PRECAUTIONARY
STATEMENTS HAZARDS
TO HUMANS
AND DOMESTIC ANIMALS**

DANGER:

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance contact the regional office of EPA.

**PHYSICAL AND CHEMICAL
HAZARDS STRONG
OXIDIZING AGENT:**

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reuse container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL:

Keep product dry in tightly closed container when not in use. Store in a cool dry, well ventilated area away from heat or open flame. In case of decomposition isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Place in trash collection or dispose in approved landfill area, or bury in a safe place.

**100 CHLORINATING
TABLETS**

Controls Algae & Bacteria in Swimming Pools

Active Ingredient:
Trichloro-s-triazine trione - 100%
Available chlorine - 90%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

PRACTICAL TREATMENT: (FIRST AID): If swallowed: Feed bread soaked in milk followed by olive oil or cooking oil. Call a physician immediately.
If on skin: Brush off excess chemicals and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.
If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.

**SEE ADDITIONAL PRECAUTIONS
ON SIDE PANEL**

Net Contents: 5 lbs.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

3 tablets will provide 1 ppm available chlorine per 10,000 gallons of pool water.

This product is manufactured for use in tablet chlorinators. Do not throw tablets directly into pool or allow them to come into contact with concrete and vinyl surfaces. Staining may result.

Follow use directions which come with the tablet chlorinator in floating chlorinators. Use 10-15 tablets per week per 10,000 gallons water. Use a reliable test kit to check chlorine residual. Twenty-four hours after treatment begins, adjust feed rate to maintain a 1.5-2.0 ppm residual.

Maintain pH at 7.2-7.8. Superchlorinate with liquid or granular chlorine compounds. Superchlorination is desirable every 7-10 days during the swimming season. See directions on the product label.

Most economical chlorination is obtained in stabilized pools. See directions on stabilizer label.

Use pool only when free chlorine residual is in 1.5-3.0 ppm range.
