Subject: *Small Chlorinating Tablets*
EPA Registration No. 10897-8
Application Date: August 1, 2003
Receipt Date: September 9, 2003

Dear Ms. Mary Flynn:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

Conditions

- 1. Revise the Ingredient statement as follows:

Active Ingredient:
Trichloro-s-triazinetrione 99.0%
Other Ingredients 1.0%
Total 100.0%
Available Chlorine 90%

- 2. The First Aid statement must be revised in accordance with the provisions of PR Notice 2001-1.

General Comments

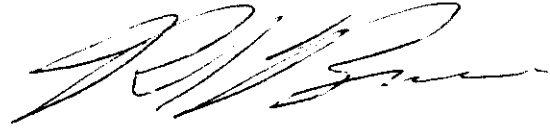

A stamped copy of the labeling accepted with conditions is enclosed. Submit a copy of your final printed labeling before distributing or selling the product bearing the revised labeling.

KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID:

IF IN EYES: Rinse with water, remove contact lenses (if applicable), and flood eyes with water for 15 minutes. Get prompt medical attention.

IF SWALLOWED: Drink large amounts of water. DO NOT induce vomiting. Call a physician or poison control center immediately.

IF ON SKIN: Wash with plenty of soap and water. If irritation persists, get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably, mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS
Hazards To Humans and Domestic Animals

DANGER

Corrosive: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

Environmental Hazards

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Physical and Chemical Hazards

Strong Oxidizing Agent

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. In case of contamination or decomposition do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

Storage and Disposal

Keep this product dry in a tightly closed container when not in use. Store in a cool dry well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding the container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

NOTE: This is the storage and disposal statement for up to 5 pound containers.

Storage And Disposal

Keep product in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all materials before discarding. Do not re-use empty container. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Triple rinse container. Offer for recycling or reconditioning, or puncture container and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not contaminate water, food, or feed by storage or disposal.

NOTE: The above storage and disposal statement will appear on 5-50 pound container.

Storage And Disposal

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all materials before discarding. Do not re-use empty container. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary land fill or by incineration if allowed by state and local authorities. If drum is contaminated, dispose of in the same manner. If drum is not damaged, it may be reused. Do not contaminate water, food, or feed by storage or disposal.

NOTE: The above storage and disposal statement will appear on all fiberboard containers with a contained polyethylene liner.

DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

3 tablets will provide 1 ppm available chlorine per 10,000 gallons of pool water.

This product is manufactured for use in tablet chlorinators. Do not throw tablets directly into pool or allow them to come into contact with concrete and/or vinyl surfaces. Staining may result.

Follow use directions which come with the tablet chlorinator. In floating chlorinators try 10-15 tablets per week per 10,000 gallons water. Use a reliable test kit to check chlorine residual. Twenty-four hours after treatment begins adjust feed rate to maintain a 1.5 -2.0 ppm residual.

Maintain pH at 7.2 - 7.6, superchlorinate with liquid or granular chlorine compounds. Superchlorination is desirable every 7 - 10 days during the swimming season. See directions on the product label.

Most economical chlorination is obtained in stabilized pools. See directions on stabilizer label.

Use pool only when the free chlorine residual is 1.5 - 3.0 ppm range.

Reentry into treated swimming pools is prohibited above levels of 3.0 ppm chlorine.
