

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (75-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

10897-9

DATE OF ISSUANCE

SEP 27 1984

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Hasa Spa Gard Chlorinating
Sanitizer

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Reg # 10897-9 PM-32 184
Hasa Inc.
23119 Drayton Street
Saugus, CA 91350

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.
2. Revise the Environmental Hazards to read as follows:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant

SIGNATURE OF APPROVING OFFICIAL

DATE

authority. For guidance, contact your State Water Board or Regional Office of the EPA".

3. Under the directions for swimming pool/spa use include the statement "Re-entry into treated pools/spas is prohibited above levels of 3 ppm of chlorine.

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Enclosure

Attachment A - Batch 26 Products

Labeling:

1. The signal word is "Danger".

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention".

"If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention".

"If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists".

"If swallowed: Drink promptly large quantities of water. Avoid alcohol. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention".

Under the federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide
registered under EPA Reg. No.

10897-9

SPA
Chlorinat

READ ENTIRE LABEL BEFORE USING
HAZARDS TO HUMANS AND DOM

DANGER: Highly Corrosive. Causes skin and eye irritation if swallowed. Do not get in eyes, on skin or on clothing. Wear eye shields and rubber gloves when handling. Irritation may be caused by breathing dust. Remove and wash contaminated clothing.

ENVIRONMENTAL HAZARDS: This product should not be discharged into lakes, streams, or public waterways without an NPDES Permit. For guidance contact the regional office.

STRONG OXIDIZING AGENT: Mix only with water. Do not use on utensils. Do not add this product to any disinfectant or remnants of any other product. Such use may lead to fire or explosion. Contamination with other chemicals may start a chemical reaction liberating hazardous gases, and possible generation of heat. In case of contamination or decomposition, if possible, isolate container in open air or well ventilated area. Flush with large volumes of water, if necessary.

STORAGE AND DISPOSAL: Keep this product in its original container, when not in use. Store in a cool, dry, well-ventilated area, away from heat or open flame. In case of decomposition, isolate container in open air or well ventilated area before discarding this container. Do not reuse empty container for trash collection. Do not contaminate food or feed. Clean and decontaminate equipment.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

START UP (with untreated water): Add 4 teaspoons of product to the spa directly across water with filter and pump running. Check chlorine residual with a test kit. If the reading is below this level, use the spa or hot tub. If the reading is below this level, the 1.5-3.0 ppm residual is attained. Do not use until the residual is reached. **MAINTENANCE:** Add 1 tsp. daily or as needed to adjust dosage if necessary. **IN USE:** Check chlorine residual with test kit and every 20-30 minutes during use. If residual is 1.5 ppm or less at the rate of 1 tsp. per 400 gallons, add between 7.2-7.6. **SUPERCHLORINATION:** After heavy use, storms, contamination, and at least every 7-10 days, add 1 oz. of the spa or hot tub. Superchlorination is the addition of a normal amount of chlorinating chemical to the water.

chlorine residuals, perspiration, and other chemicals which may build up in the water.

Do not use again until chlorine residual is back within the 1.5 - 3.0 ppm range. 1 oz. will provide 2.0 ppm available per 400 gallons.
