hi-temp
SPA GARD
Chlorinating Sanitizer

ACTIVE INGREDIENT: Sodium Dichloro-s-triazinetriene 99.0%
INERT INGREDIENTS: 1.0%

KEEP OUT OF REACH OF CHILDREN
DANGER

STATEMENT OF PRACTICAL TREATMENT (FIRST AID):

IF SWALLOWED: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

SPA GARD

Chlorinating Sanitizer

READ ENTIRE LABEL BEFORE USING THIS PRODUCT
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER

CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

attached.*

STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL: Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

START UP (with untreated water): Add 4 teaspoons per 400 gallons, broadcast directly across water with filter and pump running. The next day, check the chlorine residual with a test kit. If the reading is between 1.5-3.0 ppm you may use the spa or hot tub. If the reading is below this level, respect treatment until the 1.5-3.0 ppm residual is attained. Do not use until the required residual is reached. **REENTRY INTO TREATED POOLS/SPAS IS PROHIBITED ABOVE LEVELS OF 3 PPM.** **MAINTENANCE:** Add 1 tsp daily or as needed. Use a test kit and adjust dosage if necessary. **IN USE:** Check chlorine residual before starting spa heater and every 20-30 minutes during use. Add chemical whenever residual is 1.5 ppm or less at the rate of 1 tsp. per 400 gallons. Maintain pH between 7.2-7.6. **SUPERCHLORINATION:** After heavy use, rain storms, dust storms, contamination, and at least every 7-10 days superchlorinate or shock the spa or hot tub. Superchlorination is the addition of several times the normal amount of chlorinating chemical to destroy combined chlorine residuals, perspiration, and other chemicals which may build up in the pool water. **DO NOT USE AGAIN UNTIL CHLORINE RESIDUAL IS BACK WITHIN THE 1.5-3.0 PPM RANGE.**

1 oz. will provide 2.0 ppm available per 400 gallons. 1 oz. equals 5 teaspoons.
