1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)		
Name <p style="text-align: center;">MARY FLYNN</p>	Title <p style="text-align: center;">DIRECTOR, GOVT. AFFAIRS & PUBLIC RELATIONS</p>	Telephone No. (Include Area Code) <p style="text-align: center;">805/259-5848</p>
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.		6. Date Application Received (Stamped)
2. Signature 	3. Title <p style="text-align: center;">DIRECTOR, GOVT. AFFAIRS & PUBLIC RELATIONS</p>	
4. Typed Name <p style="text-align: center;">MARY FLYNN</p>	5. Date <p style="text-align: center;">9-5-95</p>	

TABIT SWIMMING POOL

JUMBO 100

CHLORINATING TABLETS

Controls Algae And Bacteria In Swimming Pool Water

ACTIVE INGREDIENT: Trichloro-s-triazinetrione	99.0%
INERT INGREDIENTS:	1.0%
AVAILABLE CHLORINE:	90.0%

KEEP OUT OF REACH OF CHILDREN

DANGER

STATEMENT OF PRACTICAL TREATMENT (FIRST AID):

IF SWALLOWED: Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

NET CONTENTS:

PRECAUTIONARY STATEMENTS

Hazards To Humans And Domestic Animals

DANGER

CORROSIVE: Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

Environmental Hazards

This pesticide is toxic to fish and other aquatic organism. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA

Physical And Chemical Hazards

Strong Oxidizing Agent

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

Storage And Disposal

Keep this product dry in a tightly closed container, when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage or disposal, or cleaning of equipment.

NOTE: This is the storage and disposal statement for 0.5 pound containers

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

One tablet will provide 5 1/4 ppm available chlorine per 10,000 gallons of pool water.

These tablets are manufactured for use in erosion type feeders, wherein they are slowly dissolved as the water flows over the tablets. Do not throw the tablets directly into the water. Contact with concrete or vinyl walls may result in staining. If the directions for use supplied with the chlorinator are missing or unclear, try 2 tablets per 10,000 gallons each 7-10 days. Twenty-four hours after filling the tablet feeder check the available chlorine with a test kit. If necessary, adjust the feed rate so that the chlorine residual is maintained between 1.5-3.0 ppm. If you are unable to maintain a residual after three days, superchlorinate. Disconnect or remove feeder, superchlorinate, and reconnect feeder when residual is below 3.0 ppm. Readjust feed rate to maintain a 1.5-3.0 ppm residual

Use pool only when the free chlorine residual is in the 1.5-3.0 ppm range and the pH is between 7.2-7.6. Reentry into treated swimming pools is prohibited above levels of 3.0 ppm chlorine.

Superchlorination, the addition of several times the normal amount of chlorinating chemical, is necessary to establish an initial chlorine residual in a freshly filled pool, every 7-10 days during the swimming season, and after special problems, such as heavy swimming use, dust and wind storms, rain, and unusually hot weather. A fast dissolving granular or liquid chlorinating product should be used. Follow superchlorination or "shock" directions on the label of the product selected.

Up to 90% of the chlorine residual may be lost to the ultraviolet radiation of the sun. This loss can be greatly reduced when the pool is stabilized with cyanuric acid. See stabilization directions on the Chlorine Stabilizer container.

Estimating pool size: Multiply the length in feet times the width times the average depth times 7.5 for an approximation of the gallon capacity in rectangular pools. In round pools the number of gallons can be estimated by multiplying one-half the diameter by itself, then by the average depth in feet times 24

Maintain pH between 7.2-7.6. Use reliable test kit with fresh solutions to check both pH and chlorine residual

Storage And Disposal

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all materials before discarding. Do not re-use empty container. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Triple rinse container. Offer for recycling or reconditioning, or puncture container and dispose of in a sanitary landfill, by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not contaminate water, food, or feed by storage or disposal.

NOTE: The above storage and disposal statement will appear on 5-50 pound container.

Storage And Disposal

Keep product dry in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all materials before discarding. Do not re-use empty container. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary land fill or by incineration if allowed by state and local authorities. If drum is contaminated, dispose of in the same manner. If drum is not damaged, it may be reused. Do not contaminate water, food, or feed by storage or disposal.

NOTE: The above storage and disposal statement will appear on all fiberboard containers with a contained polyethylene liner.
