

# HASA-CIDE

For Algae Prevention and Control

**ACTIVE INGREDIENT:**

Poly (oxyethylene (dimethyliminio) ethylene  
(dimethyliminio) ethylene dichloride).....40.0%

INERT INGREDIENTS: .....60.0%

TOTAL.....100%

**KEEP OUT OF REACH OF CHILDREN**

## CAUTION

See First Aid and Other Precautions on Back Panel

Packaged for Hasa Inc.  
Saugus, California 91350

**ACCEPTED**  
MAY 27 2004  
Under the Federal Insecticide, Fungicide, and  
Rodenticide Act as amended, for the  
pesticide, registered under  
EPA Reg. No. 10897-13

EPA Reg. No. 10897-13      EPA Est. No. 28059-CA-001

NET WEIGHT 32 OZ. (1 QT.) 946 ML

## HASA-CIDE

<b>FIRST AID</b>	
<b>IF INHALED</b>	<ul style="list-style-type: none"> <li>• Move person to fresh air.</li> <li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.</li> <li>• Call a poison control center or doctor for further treatment.</li> </ul>
<b>IF ON SKIN OR CLOTHING</b>	<ul style="list-style-type: none"> <li>• Take off contaminated clothing.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>IF IN EYES</b>	<ul style="list-style-type: none"> <li>• Hold eye open &amp; rinse slowly &amp; gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
<b>IF SWALLOWED</b>	<ul style="list-style-type: none"> <li>• Call a poison control center or doctor for treatment advice.</li> <li>• Have person sip a glass of water if able to swallow.</li> <li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li> <li>• Do not give anything by mouth to an unconscious person.</li> </ul>
<b>HOT LINE NUMBER</b>	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.	
<b>NOTE TO PHYSICIAN</b>	
Probable mucosal damage may contraindicate the use of gastric lavage.	

## HASA-CIDE

### **PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**STORAGE AND DISPOSAL:** Keep this product in a tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood with large amounts of water to dissolve all materials before discarding the container. Do not reuse container but place in trash collection. Do not contaminate food or feed by storage or disposal or cleaning of equipment.

## HASA-CIDE

### DIRECTIONS FOR USE READ ENTIRE LABEL BEFORE USING THIS PRODUCT

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

HASA-CIDE is used to control the growth of algae in swimming pools, exterior spas, whirlpools, hot tubs, decorative fountains and ponds that do not contain fish. For maximum effectiveness, pools, spas, whirlpools, hot tubs, decorative fountains, and ponds containing heavy growth of algae should be cleaned prior to using HASA-CIDE.

For pools having just visible algae growth, add an initial dose of 18 to 27 fluid ounces of HASA-CIDE per 10,000 gallons of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool add initially 10 to 18 fluid ounces of HASA-CIDE per 10,000 gallons of water. Subsequent additions of 3.5 to 7 fluid ounces of HASA-CIDE per 10,000 gallons of water should be made every 5 to 7 days after initial treatment for maintenance.

Spas, whirlpools, hot tubs, decorative fountains, and ponds having just visible algae growth require an initial dose of 2 to 3 fluid ounces of HASA-CIDE per 1,000 gallons of water. For treatment of a freshly cleaned spa, whirlpool, hot tub, decorative fountain, or pond, add initially 1 to 2 fluid ounces of HASA-CIDE per 1,000 gallons of water. Subsequent additions of 0.4 to 1 fluid ounces of HASA-CIDE should be made every 5 to 7 days after initial treatment for maintenance.

HASA-CIDE is compatible with those chemicals normally used to treat pools and spas and is effective at both acid and alkaline pH. HASA-CIDE can be used in pools and spas treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix HASA-CIDE with concentrated dry or liquid chemical products.

End.
