

PRECAUTIONARY STATEMENTS

Hazards to humans and domestic animals:

DANGER!

Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

Environmental Hazards:

This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public waters unless a discharge permit is obtained. For guidance, contact the regional office of the Environmental Protection Agency.

Physical and chemical hazards:

Strong oxidizing agent

Mix only with water according to label directions. Mixing this product with gross filth, such as feces, urine, etc. or with ammonia, acids, detergents, or other chemicals will release hazardous gases irritating to eyes, lungs, and mucous membranes.

HASA LIQUID CHLORINATING COMPOUND

Active ingredient: Sodium Hypochlorite 10.0%
Inert Ingredients: 90.0%
Total 100.0%

KEEP OUT OF REACH OF CHILDREN!

DANGER!

First aid: If on skin, wash with plenty of water. If in eyes, flush with water for at least 15 minutes. Get medical attention. If swallowed, drink large quantities of milk or gelatin solution, or of none of these are available, drink large quantities of water. Do not give vinegar or acids. Do not induce vomiting. Get prompt medical attention. See additional precautions on side panel.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

DIRECTIONS FOR USE: For repackaging by EPA registered establishments only

10% ounces of Hasa Liquid Chlorinating compound will provide approximately 1.0 ppm available chlorine. Maintain chlorine residual between 0.6-3.0 ppm in unstabilized pools; 1.5 - 3.0 ppm in stabilized pools. For superchlorination add 1 gallon per 10,000 gallons of pool water. Do not reenter pool until chlorine residual is below 3.0 ppm. The best time to add Hasa Liquid Chlorinating Compound as at night while the filter is running. Check the chlorine residual in the morning, and repeat dosage when necessary. NOTE: This product degrades with age. Use a reliable test kit to determine residual.

Storage and Disposal:

Store in a cool, dry place away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse container thoroughly. Deposit containers should be resealed and returned to your distributor or manufacturer. Product or rinsate which cannot be used should be diluted with water and discarded in a sanitary sewer. Do not contaminate food or feed by storage or disposal or cleaning of equipment.
