EPA Letter Dated:

SEP 27 1982

Under the Pesticide  
Fund Act, and Federal Insecticide,  
Fungicide, and Rodenticide Act,  
this pesticide has been found to be  
registered under EPA Reg. No.

10897-26

Net: 1 GALLON

Direct: 10897-26

It is a violation of Federal Law to use this product in a manner not consistent with its labeling.

Clean equipment thoroughly in the normal manner. Rinse well. Rinse water will "break free," that is, flow freely without interruption across the surface of clean equipment. Just before using, rinse all surfaces with a 200ppm solution of Hypochlor. The disinfectant solution must remain in contact with all surfaces for a minimum of 2 minutes to effect disinfection. Allow to drain dry. Do not rinse with water after treatment. Do not allow equipment to remain overnight in Hypochlor. Fresh Hypochlor at 1 oz./5 gallons will provide a 200ppm solution.

**NOTE:** This product degrades with age. Use a chlorine test kit and increase dosage (if necessary) to obtain 200ppm solution.

**Storage and Disposal:**  
Store in a cool, dry area away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse container thoroughly and return to your local distributor for deposit refund. Product or rinseate which cannot be used should be diluted with water and discarded in a sanitary sewer. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.
