

hasa chlor

FOR SANITIZATION OF FOOD PROCESSING AND DAIRY EQUIPMENT

Active Ingredient: Sodium

Hypochlorite	12.5%
Inert Ingredients	87.5%

KEEP OUT OF REACH OF CHILDREN! DANGER

FIRST AID: If on skin, wash with plenty of soap and water. If in eyes, flush with water for at least 15 minutes. Get medical attention if swallowed, drink large quantities of milk, or gelatin solution, or if these are not available, drink large quantities of water. Do not give vinegar or acids. Do not induce vomiting. Get prompt medical attention. See additional precautions on side panel.

DIRECTIONS FOR USE: Clean equipment thoroughly in the normal manner. Rinse well. Rinse water will "break free", that is, flow freely without interruption across the surface of clean equipment. Just before using, rinse all surfaces with a 200 ppm solution of Hasachlor. The disinfectant solution must remain in contact with all surfaces for a minimum of 2 minutes to effectively sanitize. Allow to drain dry. Do not rinse with water after treatment. Do not allow equipment to remain overnight in Hasachlor. Fresh Hasachlor at 1 oz/5 gallons will provide a 200 ppm solution.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage (if necessary) to obtain 200 ppm solution.

EPA REG. NO. 10897-26

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

DANGER!

Corrosive, may cause severe skin irritation or chemical burns to broken skin. Causes eye damage. May be fatal if swallowed. Avoid breathing vapors. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling this product. Wash hands after handling. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

Environmental Hazards: This disinfectant is toxic to fish. Keep out of lakes, streams, ponds, and public waters unless a discharge permit is obtained. For guidance, contact the regional office of the U.S. Environmental Protection Agency or Hasa Chemicals, Inc.

Physical and Chemical Hazards:

Strong oxidizing agent!

Mix only with water according to label directions. Mixing this product with gross filth, such as feces, urine, etc. or with ammonia, acids, detergents, or other chemicals will release hazardous gases irritating to eyes, lungs, and mucous membranes.

Storage and Disposal: Store in a cool, dry area away from direct sunlight. In case of spill, flood area with large quantities of water. Rinse container thoroughly and return to your Hasa distributor for deposit refund. Product or rinsate which cannot be used should be diluted with water and discarded in a sanitary sewer. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

It is a violation of federal law to use this disinfectant in a manner inconsistent with its labeling.

Manufactured and Packaged by Hasa Chemicals, Inc., Saugus, CA91350.
