Application for Pesticide - Section I

1. Company/Product Number 10897-30	2. EPA Product Manager RUTH DOUGLAS	3. Proposed Classification <input checked="" type="checkbox"/> None <input type="checkbox"/> Restricted
4. Company/Product (Name) Hasa Dry Algaecide	PM# 32	
5. Name and Address of Applicant (Include ZIP Code) HASA, INC. 23119 DRAYTON STREET SAUGUS, CA. 91350 <input type="checkbox"/> Check if this is a new address	6. Expedited Review. In accordance with FIFRA Section 3(c)(3) (b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No: N/A Product Name N/A	

Section - II

<input type="checkbox"/> Amendment - Explain below.	<input type="checkbox"/> Final printed labels in response to Agency letter dated _____
<input type="checkbox"/> Resubmission in response to Agency letter dated _____	<input type="checkbox"/> "Me Too" Application.
<input checked="" type="checkbox"/> Notification - Explain below. PER PR 93-10 & 95-1	<input type="checkbox"/> Other - Explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.) SEE ATTACHED PAGES. "I CERTIFY THAT THIS NOTIFICATION IS CONSISTENT WITH PR 95-1 AND EPA REGULATIONS AT 40 CFR 152.46 AND THAT NO OTHER CHANGES HAVE BEEN MADE TO THE LABELING OF THIS PRODUCT. I FURTHER UNDERSTAND THAT IF THIS NOTIFICATION IS NOT CONSISTENT WITH THE TERMS OF PR NOTICE 95-1 AND 40 CFR 152.46, THEN THIS PRODUCT MAY BE IN VIOLATION OF FIFRA AND I MAY BE SUBJECT TO ENFORCEMENT ACTION AND PENALTIES UNDER SECTIONS 12 AND

14 OF FIFRA."

Section - III

1. Material This Product Will Be Packaged In:				2. Type of Container	
Child-Resistant Packaging <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Metal <input checked="" type="checkbox"/> Plastic <input type="checkbox"/> Glass <input type="checkbox"/> Paper <input type="checkbox"/> Other (Specify) _____		
* Certification must be submitted		If "Yes" Unit Packaging wgt. N/A	No. per container N/A	If "Yes" Package wgt. N/A	No. per container N/A
3. Location of Net Contents Information <input checked="" type="checkbox"/> Label <input checked="" type="checkbox"/> Container		4. Size(s) Retail Container 1-350- lbs.		5. Location of Label Directions <input checked="" type="checkbox"/> On Label <input type="checkbox"/> On Labeling accompanying product	
6. Manner in Which Label is Affixed to Product <input checked="" type="checkbox"/> Lithograph <input type="checkbox"/> Paper glued <input type="checkbox"/> Stenciled <input type="checkbox"/> Other _____					

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)		
Name MARY FLYNN	Title DIRECTOR, GOVT. AFFAIRS & PUBLIC RELATIONS	Telephone No. (Include Area Code) 805/259-5348
2. Signature 		6. Date Application Received (Stamped)
3. Title DIRECTOR, GOVT. AFFAIRS & PUBLIC RELATIONS		
4. Typed Name MARY FLYNN		
5. Date 9-5-95		

# DRY ALGAEICIDE

**Aids in the Removal of Black Algae Spots  
on Pool Surfaces**

ACTIVE INGREDIENT: Trichloro - s - triazinetrione.....	99.0%
INEFT INGREDIENTS:.....	1.0%
AVAILABLE CHLORINE:.....	89.0%

**KEEP OUT OF THE REACH OF CHILDREN  
DANGER**

SEE FIRST AID AND OTHER PRECAUTIONS ON BACK PANEL.

EPA Reg. No. 10897-30

EPA Reg. No. 10897 CA- 1

Packaged by

Hasa Inc., Saugus, CA 91350

## **DIRECTIONS FOR USE**

It is a violation of Federal law to use Dry Algaecide in a manner inconsistent with its labeling.

Read and understand the entire label before using, storing, and dispensing this product. If you do not understand the labeling, contact your retail dealer or the manufacturer before using.

Dry Algaecide is specifically formulated to aid in the removal of black algae spots. It is not to be used for regular chlorination. Do not use Dry Algaecide on pools with plastic liners or painted surfaces. Permanent staining may result. Before using this product, check pH, chlorine residual, and total alkalinity with a reliable test kit with fresh solutions. Adjust pH to 7.2-7.8, chlorine residual to 1.0-3.0 ppm, and total alkalinity to 100 ppm. Follow the label directions on these products when dispensing chemicals and making the above adjustments. When pool water is adjusted to the ideal range, turn off filter and pump. Keep filter and pump off until treatment is completed.

Unlike the free-floating green and mustard algae, black algae attach themselves to the sides and bottoms of pools, forming black clumps, or spots. Infestations vary from a few spots to hundreds of spots through the pool surface. They are very difficult to remove.

**SPOTS ON POOL WALLS:** Place a teaspoon of Dry Algaecide into a four by four inch piece of cheesecloth. Tie together with string, and hang bag from the pool edge next to the black spot. Allow to remain 24 hours. Remove bag, and brush pool surface with a stainless steel brush. If the spot is not completely gone, repeat process.

**ISOLATED SPOTS ON POOL BOTTOM:** Locate your swimming pool pole directly over black algae spot. Pour 1 tablespoon of Dry Algaecide directly down center of pole, allowing granules to fall all the way to the bottom onto the spot. After 24 hours, brush area with stainless steel brush. If spot is not completely gone, repeat process.

**MULTIPLE SPOTS ON BOTTOM OF POOL:** Broadcast 1 pound Dry Algaecide per 300 square feet over surface of pool. Allow granules to settle to the bottom. After 24 hours, brush entire pool bottom. If spots are not completely gone, repeat process.

**IN ALL CASES:** When treatment has been completed, turn on filter and pump to circulate water. If necessary, vacuum algae debris. After 2 hours, check pH and available chlorine residual. Swimmers can again use pool once pH, alkalinity, and available chlorine residual are in the ideal range.

**REENTRY INTO TREATED SWIMMING POOL IS PROHIBITED ABOVE LEVEL OF 3.0 PPM CHLORINE.**

## STATEMENT OF PRACTICAL TREATMENT (FIRST AID):

**IF SWALLOWED** Drink promptly large quantities of water. Do not induce vomiting. Avoid alcohol. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately.

**IF IN EYES** Hold eyelids open and flush with a steady gentle stream of water for 15 minutes. Get medical attention.

**IF ON SKIN** Wash with plenty of soap and water. Get medical attention.

**IF INHALED** Remove victim to fresh air. If not breathing give artificial respiration preferably mouth-to-mouth. Get medical attention.

**NOTE TO PHYSICIAN** Probable mucosal damage may contraindicate the use of gastric lavage.

## PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

### DANGER

**CORROSIVE** Causes irreversible eye damage and skin burns. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

### Environmental Hazards

This pesticide is toxic to fish and other aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### Physical and Chemical Hazards

**STRONG OXIDIZING AGENT** Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device which contains remnants of any other product. Such use may lead to a violent chemical reaction leading to fire and/or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, generation of hazardous gases, and/or possible fire and/or explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or in well ventilated area. If necessary, flood with large quantities of water and flush to a sanitary sewer. In case of emergency or if additional information is required, phone Hase, Inc. at 605/259-5848.

### Storage And Disposal

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Do not reuse empty container. Securely wrap original container in several layers of newspaper and discard in trash.

**NOTE** The above statement will appear on all containers of this product from 0.5 pounds net weight. We believe this statement complies with FR Notice 83-3 (B) (3) and FR Notice 84-1 (II) (C).

### Storage And Disposal

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat and open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding. Do not reuse empty container. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. Do not reuse empty container. Triple rinse container. Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. Do not contaminate water, food or feed by storage or disposal.

**NOTE:** The above statement will appear on all containers larger than 5lbs and less than 50 pounds. We believe this statement complies with PR Notice 83-3 (B) (1), (B) (2), (C) (1) and Appendix A.

### Storage And Disposal

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all materials before discarding. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal site. Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by state and local authorities. If drum is contaminated, dispose of in the same manner. If drum is not damaged, it may be reused. Do not contaminate water, food, or feed by storage or disposal.

**NOTE:** The above statement will appear on all product packaged in fiberboard drums with a contained polyethylene liner. We believe this statement complies with PR Notice 93-3 (B) (1), (B) (2), (C) (1) and Appendix A.
