

Aerosol Detergent Disinfectant

881 Aerosol Detergent Disinfectant is designed for general household cleaning and disinfecting in homes, nursing homes, hospitals, institutions, offices, schools, motels and hotels. When used as directed, 881 Aerosol Detergent Disinfectant is formulated to disinfect nonporous hard surfaces (such as walls, sinks, tubs, toilets, showers, bathtubs, shower stalls, bathtubs, mirrors, cabinets, and bed springs) in addition, 881 Aerosol Detergent Disinfectant deodorizes hard areas which generally are hard to keep fresh smelling (such as garbage disposal areas, empty garbage bins and cans, basements, rest rooms and other areas which are prone to odors caused by microorganisms).

When used as directed, 881 Aerosol Detergent Disinfectant demonstrates effective disinfection against *Staphylococcus aureus*, *Salmonella enteritidis*, and *Pseudomonas aeruginosa*, thus meeting requirements for hospital use. Efficiency tests have demonstrated that 881 Aerosol Detergent Disinfectant is an effective one step cleaner disinfectant in the presence of organic soil (5% blood serum).

The product is highly effective against Pathogenic fungi (Fungi) when used as directed on hard surfaces found in the bathroom, shower stall, and kitchen. Further, clean hard non-porous surfaces commonly contacted by bare feet.

MOLD AND MILDEWSTAT - 881 Aerosol Detergent Disinfectant prevents and controls mold and mildew and the odors they cause on hard non-porous surfaces.

Directions For Use - General Classification

881 Aerosol Detergent Disinfectant has been designed specifically for household and institutional cleaning and disinfecting in homes, nursing homes, hospitals, offices, schools, motels, and hotels.

DISINFECTION, DEODORIZATION, AND CLEANING. To disinfect non-porous surfaces (such as bathroom tiles, walls, bathtubs, shower stalls, sinks, bathtubs, bathtubs, tubs, and chairs, proceed as indicated below:

(1) Shake can before using. (2) Hold can to right surface from surface to be treated. (3) Spray area until it is covered with a white foam. Allow foam to penetrate and return wet for 10 minutes. Use scrubbing brush. (4) Wipe off with a clean cloth, rinse or sponge. The product will not leave any residue.

For heavily soiled areas, remove gross soil before treatment.

MILDEWSTAT - To control mold and mildew on painted hard non-porous surfaces (such as walls, walls, tubs, etc.), spray surfaces to be treated with a white foam. Allow foam to penetrate and return wet for 10 minutes. Let it dry. Repeat application at weekly intervals or when mildew growth appears.

Precautionary Statements
Hazardous to Humans & Domestic Animals
