Cleveland, OH 44133

AUG 30 2000

Subject: 881 Foaming Germicidal Cleaner
EPA Registration No. 10900-57
Amendment Date: 6/19/00
EPA Receive Date: 6/27/00

Attention: Ms. Jamie Zajac

The amendment, referenced above, submitted in connection with registration under FIFRA, as amended, to add kitchen use sites to the label is acceptable provided you address the following recommendations before you release this product for shipment.

Page 1

- a. The claim "EPA Registered for use in hospitals" is misleading and must be deleted. Any statement directly or indirectly implying that a pesticide is recommended or endorsed by any agency of the Federal Government is considered to be false and misleading (40 CFR 156.10 (a)(5).
- b. The claim, "Cleans and Disinfects against Micro-organisms," must be revised by deleting "microorganism" and replacing it with bacteria, viruses*, and fungi. The term, "micro-organisms," is too broad.

Page 2

- a. This product is marketed for use in homes as well as institutions. If you want to expand the use areas to include kitchens, you will also need to expand the use sites to include restaurants, cafeterias, and bars.
- b. The third sentence in the 2nd paragraph should be revised by deleting the phrase "such as" and replacing it with "hard."

OFFICIAL FILE COPY

- c. In the 5th paragraph, "*non-porous*" must be included in the phrase "inanimate hard surfaces, and porcelain must be qualified as hard, non-porous by stating "*glazed*."
- d. The 2nd sentence in the 9th paragraph needs to be revised by stating "*Kills Trichophyton mentagrophytes, the cause of Athlete's foot fungus, on hard, non-porous surfaces found in bathrooms.*"

Page 3

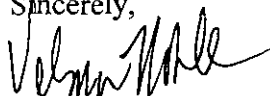

- a. The surface, "bathroom tiles," must be qualified as hard, non-porous by stating "*glazed*."
- b. Under the "Directions for Use", you will need to state "When disinfecting food contact surfaces such as kitchen counters, tables, cutting boards, appliances, you must thoroughly rinse the surfaces with potable water. This product must not be used to clean/disinfect utensils, glasses, dishes, and cookware."

Page 4

On April 11, 2000, The Agency published PR Notice 2000-3, First Aid Statements for Pesticide Product Labels. You will need to revise your "Statements of Practical Treatment" accordingly. It is the Agency's goal to have all the product labels revised by October 1, 2001.

A stamped copy is enclosed for your records. One copy of the final printed label must be submitted to the Agency before this product is released for shipment. If you have any questions regarding this letter, please contact Jacqueline Campbell at (703) 308-6416.

Sincerely,

Velma Noble

BACK PANEL

00881 Foaming Germicidal Cleaner is designed for general household cleaning and disinfecting in Homes, Nursing Homes, Hospitals, Institutions, Office, Schools, Motels and Hotels.

00881 Foaming Germicidal Cleaner is designed for tough cleaning and disinfecting non-porous hard surfaces in the bathroom. Cleans, shines, deodorizes and disinfects pre-cleaned and non-porous hard surfaces such as bathtubs, sinks, shower stalls and toilet seats. May be used on other such as non-porous surfaces such as fiberglass, chrome, plastic, baked enamel and glazed porcelain. Non-abrasive.

00881 Foaming Germicidal Cleaner is designed for tough cleaning and disinfecting non-porous hard surfaces. Cleans, shines, deodorizes and disinfects pre-cleaned and non-porous hard surfaces such as kitchen counter tops, tables and sinks. May be used on other non-porous surfaces such as fiberglass, chrome, plastic, baked enamel and glazed porcelain. Non-abrasive.

When used as directed, 00881 Foaming Germicidal Cleaner is formulated to disinfect inanimate hard surfaces (such as walls, sink tops, tables, chairs, telephones, bathrooms, shower stalls, bathtubs, hampers, cabinets, and bed springs).

When used as directed, 00881 Foaming Germicidal Cleaner is formulated to deodorize, shine and clean inanimate hard surfaces such as vanity tops, toilet seats, chrome, plastic, baked enamel and porcelain.

00881 Foaming Germicidal Cleaner has been designed specifically for Household and Institutional cleaning and disinfecting in Homes, Nursing Homes, Hospitals, Offices, Schools, Motels and Hotels.

In addition, 00881 Foaming Germicidal Cleaner deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by micro-organisms.

When used as directed, 00881 Foaming Germicidal Cleaner, demonstrates effective disinfection against *Staphylococcus aureus*, *Salmonella choleraesuis*, and *Pseudomonas aeruginosa*, thus meeting AOAC Use Dilution Test requirements for hospital disinfectant. Efficacy tests have demonstrated that 00881 Foaming Germicidal Cleaner is an effective one-step cleaner disinfectant in the presence of organic soil (5% blood serum).

Meets AOAC Use Dilution Test Requirement for hospital disinfectant. Also protects against Athlete's Foot Fungus on hard, non-porous surfaces.

5/5
No scrubbing, No rinsing, Non-abrasive.

Great on fiberglass and leaves a fresh clean scent.

This product is fungicidal against Pathogenic fungi (T. mentagrophytes) when used as directed on hard surfaces found in the bathroom, shower stall and locker room, or other clean, hard, non-porous surfaces commonly contacted by bare feet.

MOLD AND MILDEWSTAT - 00881 Foaming Germicidal Cleaner prevents and controls mold and mildew and the odors they cause on hard non-porous surfaces.

Prevents and controls mold and mildew on hard, non-porous surfaces.

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION, DEODORIZATION, AND CLEANING: To disinfect hard non-porous surfaces (such as bathroom tiles, walls, fixtures, shower stalls, sinks, bathtubs, hampers, tables, and chairs), proceed as indicated below:

-Shake can before using.

-Hold six to eight inches from surface to be treated.

-Spray area until it is covered with a white foam. Allow foam to penetrate and remain wet for 10 minutes.

-Wipe off with a clean cloth, mop or sponge. The product will not leave grit or soap scum.

-For heavily soiled areas, remove gross soil before treatment.

OR

Alternate Directions For Use With Spray-Anyway Valve

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISINFECTION, DEODORIZATION AND CLEANING:

1. SHAKE CAN WELL BEFORE AND DURING USE.
 2. Holding can 6 to 8 inches from surface, spray area until it is covered with a white foam. To disinfect, allow foam to penetrate and remain wet for 10 minutes.
- AUG 30 2000
10900-5

- 6/8
- To clean surface only, wipe foam away after 1 - 2 minutes.
3. Wipe with wet cloth or sponge.
 4. For heavily soiled areas, remove excess soil before treatment.

Note: This product features an adjustable spray-anyway tip. May be sprayed upside down or from most angles. For best results, check that arrow on tip is turned to mark on rim before spraying.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

MILDEWSTAT - To control mold and mildew on precleaned, non-porous surfaces, spray surface until it is completely wet. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

MILDEWSTAT - To control mold and mildew on precleaned hard non-porous surfaces (such as floors, walls, table tops), spray the surfaces to be treated. Make sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

PESTICIDE STORAGE OR STORAGE - Do not contaminate water, food or feed by storage disposal.

Storage - Store in a cool, dry area away from heat or open flame.

Disposal - Do not reuse empty container. This container may be recycled in the few but growing numbers of communities, where (steel) aerosol can recycling is available. Before offering for recycling, empty the can by using the product according to the label. (DO NOT PUNCTURE!) If recycling is not available, wrap container and discard in the trash.

Open dumping is prohibited.

Contains no CFCs or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.

OPTIONAL HIV-1 DIRECTIONS (MUST BE USED WITH HIV-1 BULLET POINTS)

KILLS HIV ON PRE-CLEANED ENVIRONMENTAL SURFACES AND OBJECT PREVIOUSLY SOILED WITH BLOOD OR BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surface or object with blood or body fluids, and in which the surfaces and objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV OR SURFACES AND OBJECTS SOILED WITH BLOOD OR BODY FLUIDS:

PERSONAL PROTECTION: Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks or eye coverings.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to federal, state, and local regulations for infectious waste disposal.

CONTACT TIME: Leave surface wet for ten minutes.
