Subject: Label Amendment – Minor label modifications
Product Name: 881 Foaming Germicidal Cleaner
EPA Registration Number: 10900-57
Application Date: August 30, 2018
Decision Number: 544012

Dear Ms. Davis:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Decision No. 544012

with FIFRA section 6. If you have any questions, please contact Tara Flint via email at flint.tara@epa.gov or Eric Miederhoff at Miederhoff.eric@epa.gov.

Sincerely,

A handwritten signature in blue ink that reads "E. Miederhoff". The signature is written in a cursive, flowing style.

___ oz. ___ g Net Wt.

{Back Panel}

For use only on hard, non-porous, non-food contact surfaces.

When used as directed, 881 Foaming Germicidal Cleaner [this product], demonstrates effective disinfection against Methicillin Resistant *Staphylococcus aureus* (MRSA), *Pseudomonas aeruginosa*, *Salmonella enterica* and *Staphylococcus aureus*. Efficacy tests have demonstrated that 881 Foaming Germicidal Cleaner [this product] is an effective one-step cleaner/disinfectant in the presence of organic soil (5% blood serum) with a 10-minute contact time.

Kills *Trichophyton interdigitale*, the cause of Athlete's foot fungus, on hard, non-porous surfaces found in bathrooms.

Sanitizes: Kills 99.9% of *Escherichia coli*, *Klebsiella pneumonia*, *Proteus vulgaris*, *Serratia marcescens*, *Staphylococcus aureus* (Staph) and Vancomycin-Resistant *Enterococcus faecalis* (VRE), on hard, non-porous, non-food contact surfaces with a 5-minute contact time.

This product is fungicidal against pathogenic fungi (*T. interdigitale*) when used as directed on hard, non-porous surfaces found in the bathroom, shower stall and locker room, or other hard, non-porous surfaces commonly contacted by bare feet.

Mold and Mildewstat: 881 Foaming Germicidal Cleaner [This product] controls mold and mildew and the odors they cause on hard, non-porous, non-food contact surfaces.

First Aid

If Swallowed:

- Immediately call a poison control center or doctor for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

If on Skin or Clothing:

- Take off contaminated clothing.
- Immediately rinse skin with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

If in Eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.
For medical emergencies, call the poison control center at 1-800-222-1222.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Harmful if swallowed or absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Thoroughly wash with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Wear safety glasses and rubber gloves.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting. Incineration of container may cause explosion.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Disinfection, Sanitization, Deodorization and Cleaning:

1. For heavily soiled areas, remove heavy soil or gross filth before treatment.
2. **Shake Can Well Before and During Use.**
3. Holding can 6 to 8 inches from surface, spray area until it is covered with a white foam. To disinfect, allow foam to remain wet for 10 minutes. To sanitize, allow foam to remain wet for 5 minutes. To only clean surface, wipe foam away after 1 to 2 minutes.
4. Wipe with wet cloth or sponge.

After disinfection/sanitization, a potable water rinse is required. Do not use to disinfect/sanitize appliance, refrigerator and microwave oven interiors. Do not use on dishes, glasses and utensils. *[Alternate language for residential-use products:]* Do not use to disinfect/sanitize appliance, refrigerator and microwave oven interiors. Do not use on dishes, glasses or utensils.]

{Statement for use when Spray-Anyway valve is used}

[Note: This product features an adjustable spray-anyway tip. May be sprayed upside down or from most angles. For best results, check that arrow on tip is turned to mark on rim before spraying.]

Bacteriostat - To kill bacteria on hard, non-porous, non-food contact surfaces, spray surface until covered with a white foam. Allow foam to remain wet for 10 minutes, then wipe clean.

Mold and Mildewstat - To control mold and mildew on pre-cleaned, hard, non-porous, non-food contact surfaces, spray surface until it is completely covered in foam. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

[Mold and Mildewstat - To control mold and mildew on pre-cleaned, hard, non-porous, non-food contact surfaces such as {select from "Surfaces"}, spray the surfaces to be treated. Completely cover surfaces with foam. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.]

{Optional HIV-1 Directions (The following two paragraphs must be used when label has the HIV-1 claim)}

Kills HIV on pre-cleaned, hard, non-porous, non-food contact environmental surfaces and objects previously soiled with blood or body fluids in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces or objects with blood or body fluids, and in which the surfaces and objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of human immunodeficiency virus Type 1 (HIV-1) (associated with AIDS).

Special instructions for cleaning and decontamination against HIV on surfaces and objects soiled with blood or body fluids: **Personal Protection:** Specific barrier protection items to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks and eye coverings. **Cleaning Procedure:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant. **Disposal of Infectious Materials:** Autoclave blood and other body fluids and dispose of according to federal, state and local regulations for infectious waste disposal. **Contact Time:** Leave surface wet for 10 minutes.

{The following paragraph is required when the product bears human medical use sites/articles/surfaces:}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection. [*{Alternate statement for product intended for non-medical uses/environments:}* This product is not for use on medical devices or medical equipment surfaces.]

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in a cool, dry area away from heat or open flame. **Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Handling:** Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling if available. [This container may be recycled in the few but growing numbers of communities, where (steel) aerosol can recycling is available. Before offering for recycling, empty the can by using the product according to the label. Do Not Puncture! If recycling is not available, discard container in trash.] **If partly filled:** Call your local solid waste agency for disposal instructions.

{Per PR Notice 2007-4 the batch code/lot number will appear on the label or container.}
