DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.

INDOORS: To Kill Fleas, Mosquitoes, Small Flying Moths, Gnats and Wasps: Close all doors and windows and direct spray upward into center of room, with a slow sweeping motion. Spray 5-10 seconds in average rooms. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and destroy fallen insects.

To Kill Cockroaches, Ants and Crickets: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas wherever these pests are suspected of hiding. To kill Ants, treat doors, around window frames, ant trails and other areas of entry. Repeat as necessary.

To Kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, and areas under furniture and wherever these insects are seen or suspected. Repeat as necessary.

To Kill Exposed Forms of Confused Flour Beetles, Saw-Toothed Grain Beetles, and Rice Weevils: Find and destroy infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Repeat as necessary.

To Kill Sowbugs, Centipedes, Firebrats and Spiders: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators.

To Kill Fleas and Brown Dog Ticks: Remove and destroy old pet bedding. Spray sleeping quarters of pets, around baseboards, window and doorframes, wall cracks and local areas of floors. Repeat as necessary. Do not spray animals. Put fresh bedding in pets quarters after spray has dried. Also treat dogs and cats with a registered flea and tick control product before allowing them to enter treated area.

OUTDOORS:

To Reduce Annoyance of Houseflies, Mosquitoes, Gnats and Small Flying Moths: Spray area infested with these flying insects. Hold container 8-24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these pests treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary.

TO KILL ORNAMENTAL PLANT PESTS LISTED BELOW:

GENERAL: When sprayed directly onto insects, this spray will kill the insects listed. Caution should be taken when spraying new tender growth on young plants. **WHEN SPRAYING HOLD CAN 18-24 INCHES FROM PLANT.** For best results, spray in the evening or on a cloudy day when air is still. Mist the plants lightly. Use a slow sweeping motion. Avoid wetting foliage with sprays. Spray rows at the rate of 1 foot per second. For heavy growth, spray both sides of row. Repeat as needed. Do not spray when temperatures exceed 90°F.

SPRAY CHART

INSECT	PLANTS
Eastern Tent Caterpillar.....	Ornamental Cherry
Aphid.....	Spires, Rose, Crape Myrtle
