

Indoor/Outdoor Insect Spray

865 is intended for use indoors and in backyards, patios and picnic areas. Shake Before Using.

Directions For Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- To kill ants, centipedes and crickets: Spray infested surface of patio or picnic area, hitting as many insects as possible. Spray ant hills and trails for best control. Repeat as necessary.
- When properly directed, the spray mist will kill flies, mosquitoes and gnats up to 20 feet away. Point valve opening away from face. For best results, spray when air is calm. Allow a few minutes for product to take effect. Spray from center of area to be treated when not breezy. Spray with wind if breeze is blowing.
- Flies, Mosquitoes, Gnats and Small Flying Moths: Close all doors and windows and spray all parts of the room with mist. Direct spray into all areas of the room, especially windows and other light sources which attract these insects. Keep the room closed for 15 minutes after treatment. Ventilate the room completely before re-entry. Repeat treatment as necessary.
- Open and shut the valve completely. Keep your finger out of the spray so as not to form droplets.
- To use entire contents, hold sprayhead stationary and rotate can until material sprays as shown.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection. Store in a cool dry place. Keep container closed.

Important Note: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
