WARNING: Keep Out Of Reach Of Children. Use this product only in accordance with label directions.

Keep children and pets off treated areas until this material is washed into the soil and grass is dry.

Do not use on household pets or humans. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Avoid contact with skin, eyes and clothing. In case of contact, wash skin with soap and water promptly. Flush eyes repeatedly with running water and get medical attention. Wash contaminated clothing with soap and hot water before re-use. Do not use on edible plants. Do not contaminate or store near feed or foodstuffs. Wash after handling and before eating or smoking. Do not re-use container. Destroy when empty. Do not transfer material to another container.

This product is toxic to fish, birds and other wildlife. Birds and other wildlife in treated areas may be killed. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

This product is highly toxic to bees exposed to direct treatment or residues. Protective information may be obtained from your Cooperative Agricultural Extension Service.

DO NOT USE, POUR, SPILL OR STORE NEAR HEAT OR OPEN FLAME. NOTICE: Buyer assumes all risks of use, storage or handling of this material not in strict accordance with label directions.

DIRECTIONS - FOR SPOT APPLICATION ONLY

HOUSEHOLD PESTS—ANTS, BOX ELDER BUGS (Outside Buildings) - 1 Tablespoonful (½ oz.) in 1 gallon water. Apply along runways, in cracks in cement walks and patios, around garbage containers, under porches, around outside house foundations. Also spray box elder trees and ornamentals where bugs congregate. Spot treat nests in lawns or other infested areas.

ANTS, ROACHES, SPIDERS (Inside Buildings) - 3 Tablespoonfuls (1½ ozs.) per gallon water. Spray thoroughly only trails around door sills, window frames, openings around water pipes, heat ducts, electrical outlets and baseboards, where these pests may enter. Do not contaminate food, utensils, dishes or drinking water. Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Use a coarse, wet spray. Repeat as necessary. May cause staining of finished surfaces.

LAWN PESTS—INSECTS: JUNE BEETLE GRUBS, WHITE GRUBS, JAPANESE BEETLE GRUBS, SOD WEBWORMS, LAWN MOTH LARVAE, ANTS, MOLE CRICKETS, CUTWORMS, GRASSHOPPERS, CHIGGERS - Spray thoroughly at 1 Tablespoonful (½ oz.) in 1 gallon water per 150 sq. ft. area (8 ozs. in 15 gallons water per 2400 sq. ft.).

EARWIGS: 1 Teaspoonful in 1 gallon water. Apply in damp, shady areas, around and under boards and similar places. Repeat as necessary.

TERMITES—Subterranean: Dig a trench along the outside of the foundation walls. In brick or hollow block or concrete foundations, dig a trench to, but not below the footing. Mix 2 ozs. Chlordane 72% per gallon of water. Then as the trench is refilled, treat the soil at the rate of 4 gallons per 10 linear feet for each foot of trench depth. A trench 3 feet deep would require 12 gallons per 10 linear feet. The objective is to establish a treated soil barrier which will prevent termite entry. Other critical areas may also require treatment. It is suggested that you consult the State Extension Service for advice.
