1901

**RUSSELL CHEMICAL WEED OIL** is a general contact herbicide, formulated for use as a spray for the control of annual and perennial broad leaf weeds and grasses such as Mustard, Ragweed, Puncture Vine, Pigweed, Russian Thistle, Bermuda Grass and Johnsongrass.

It may be used effectively for the control of weeds in orchard clean culture, irrigation and drainage ditch banks and other places where weeds are not wanted.

#### DIRECTIONS

In power sprayers equipped with mechanical agitation, use **RUSSELL CHEMICAL WEED OIL** at the rate of 1 gallon per two gallons of water. To PROPERLY MIX, agitation in the spray tank should be maintained continuously throughout filling, hauling and spraying

07334

procedure. Spray pressure of 60 pounds per square inch should be maintained while spraying. In hand sprayers not equipped with mechanical agitation, use **RUSSELL CHEMICAL WEED OIL** diluted. Thorough coverage of the entire weed surface is necessary.

Weeds are much easier to kill when young and small. Consequently, spraying should be done preferably before growth exceeds 4 inches in height and always prior to maturity of seeds.

Eradication of weeds may be obtained by repeated applications properly timed. When used as directed this weed oil will not sterilize the soil.

#### ACTIVE INGREDIENTS:

Petroleum Hydrocarbons ..... 100%

#### CAUTION

Keep Out of Reach of Children

Avoid contact with skin. Wash contacted areas with warm water and soap. Avoid inhalation of spray. Harmful if swallowed. Do not get in eyes. In case of contact, flush eyes with plenty of water. If irritation persists, get medical attention.

Keep this product out of any body of water. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by the cleaning of equipment or disposal of wastes. Do not apply in any manner not specified on this label.

Do not reuse empty container. Dispose of in accordance with state and local regulations.
