Inert Ingredients

Water
Surfactant

CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Do not breathe dust or spray. Avoid contamination of feed and foodstuffs. Use food processing plants only when the plants are not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. In hospitals, patients should be removed from room prior to treatment. Room should be ventilated for 2 hours after spraying. Do not return patients to room until after ventilation. Remove pets, birds and cover fish aquariums before spraying.

DIRECTIONS FOR USE

FOR FLIES, MOSQUITOES AND GNATS: Close doors and windows. Spray freely toward ceiling in all directions until room is filled with mist, then leave the room. Keep doors closed for at least 15 minutes. Ventilate the room when treatment is completed.

WASPS: Application should be made in the late evening when insects are at rest. Spray liberally into hiding and breeding places, contacting as many insects as possible. Repeat as necessary.

CONTAINER DISPOSAL

Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.
