Technical CHLOROPICRIN

| | |
|---------------------|-------------|
| Active ingredients: | |
| Chloropicrin | 99.4% |
| Inert ingredients | <u>0.6%</u> |
| TOTAL | 100 % |

ACCEPTED

MAY 15 1984

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 11220-14

KEEP OUT OF REACH OF CHILDREN

DANGER  **POISON**

**SEND FOR A DOCTOR IMMEDIATELY
IN CASE OF EXPOSURE**

STATEMENT OF PRACTICAL TREATMENT

If inhaled- Remove victim to fresh air immediately. Keep victim lying down and warm. Give artificial respiration if breathing has stopped. Call physician immediately.

If on skin- Remove all contaminated clothing and shoes immediately. Wash exposed areas thoroughly with soap and water. If a rash or blister develops, get medical attention. Clean or launder contaminated clothing before re-use. Do not re-use clothing or shoes until completely free of chemical odor.

If in eyes- Flush with running water for at least 15 minutes. Get medical attention promptly.

See Side Panel For Additional Precautionary Statements.

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS
AND DOMESTIC ANIMALS:
DANGER**

Poisonous liquid and vapor. Contact with liquid may produce burns. Do not breathe vapor. Do not get in eyes, on skin, or clothing. Wash all contaminated clothing with soap and water before re-use. Do not re-use contaminated clothing or shoes until free of chemical odor.

THIS FUMIGANT IS A HIGHLY HAZARDOUS MATERIAL AND MUST BE HANDLED WITH CARE ONLY BY THOSE INDIVIDUALS EXPERIENCED WITH ITS PROPER USE. CONSULT YOUR DEALER REPRESENTATIVE OR TRICAL INCORPORATED FOR CORRECT PROCEDURE. BEFORE USING, READ AND FOLLOW ALL LABEL DIRECTIONS AND PRODUCT LITERATURE SPECIFIC TO YOUR PARTICULAR REQUIREMENTS.

fumigant has the capacity to cause marked irritation to the upper respiratory tract, and is a strong lachrymator (tear producing eye irritant). Low concentrations, below those necessary to cause serious systemic intoxication, are capable of causing severely painful eye irritation, hence will not be voluntarily tolerated. However, the effect may be so powerful that a person may become temporarily blinded and panic-stricken and that in turn may lead to accidents.

RESPIRATORY EXPOSURE

RESPIRATORY PROTECTION: Do not breathe fumes.

Because of the lachrymatory action of this fumigant, it will serve as its own identifying agent to help prevent over-exposure. However, if vapor exposure may occur in a confined space, a full face gas mask with an air supply (tank or airline) is recommended. Read and follow the gas mask manufacturers' recommendations. A full face gas mask with a fresh black canister meeting N.I.O.S.H. specifications for organic vapors can also be used under certain circumstances where the vapor concentration is known to be under 2% by volume (5 lb. per 1000 cu. ft.). Canisters should be used for no more than that period recommended by the manufacturer. Destroy used canisters by crushing. Chloropicrin must not be depended upon as an identifying agent when a canister gas mask is used.

EYE EXPOSURE

Wear safety glasses when working with this fumigant. Exposure of eyes to splashing liquid fumigant may render an individual helpless. In case of eye exposure flush eyes with clean water.

SKIN EXPOSURE

Do not spill. If liquid fumigant splashes or spills, on shoes or clothing, remove them at once, as fumes from the contaminated area will be an intolerable source of irritation. If liquid contacts skin where rings or bandages are worn, remove them and wash exposed skin with soap and water. Air expose shoes or clothing outside and do not wear until free of all traces of fumigant.

Always have adequate clean water available to wash skin.

ENVIRONMENTAL HAZARD

This fumigant is toxic to fish and wildlife. It should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning of equipment or disposal of wastes.

CHEMICAL HAZARD

Do not use containers or application equipment made of magnesium, aluminum or their alloys, as under certain conditions this fumigant may be severely corrosive to such metals. Do not permit water to be used to clean fumigant pressure system as corrosion will result. Diesel oil is satisfactory for this purpose.

STORAGE AND RETURN OF FUMIGANT CYLINDERS

STORAGE
Do not store with food, feeds, or clothing.
Storage areas should be:
(1) Secured by lock and key.
(2) Posted as pesticide storage.
(3) Away from dwellings
(4) Dry and cool.
(5) Well ventilated.

SPILL OR LEAK PROCEDURE
Evacuate affected area, use respiratory protection and correct problem. Move cylinder outdoors or to an isolated location. Wash fumigant into soil or cover with soil if possible. Allow liquid to evaporate. Do not permit re-entry into area until free of fumes.

RETURN OF CYLINDERS
(1) Cylinders are the property of:
Trical Incorporated
8770 Bolsa Rd.
Hollister, CA
and should be returned promptly by collect auto freight.
(2) When a cylinder is empty, the valve should be closed, the safety cap screwed onto the valve outlet, and the protection bonnet replaced prior to its return to the shipper.
(3) Do not ship cylinders without safety caps or valve protection bonnets.
(4) When a cylinder is partially full and there is no further requirement for the product, contact Trical Incorporated for return instructions.
(5) Containers should never be refilled by the consumer or used for any other product or purpose.

SHIPPING
This fumigant is classified in the U.S. Department of Transportation Hazardous Materials Regulations as Chloropicrin Liquid, class "B" poison and no exemptions from specification packaging, marking and labeling are allowed. Describe empty cylinders as having last contained Chloropicrin Liquid. Do not ship with food, feeds, or clothing.

HANDLING
(1) The valve protection bonnet and safety cap should be removed only when fumigant is about to be removed from the cylinder. The safety cap and valve protection bonnet must be replaced when cylinder is not in use.
(2) Cylinders should never be subjected to rough handling or to abnormal mechanical shock such as dropping, bumping, dragging or sliding
(3) Rope slings, hooks, tongs, and similar handling devices should not be used for unloading cylinders.
(4) A suitable hand truck, fork truck, or similar device to which the cylinders can be firmly secured, should be used for transporting the heavier cylinders.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling

Trical Technical Chloropicrin can be used for formulation into end-use products for use as a fumigant for the control of stored grain insects/pests, weeds, soil borne insects/diseases, for the following use patterns, provided tolerances are established or an exemption from tolerances is in effect.

- a. Non-Domestic, Outdoor food/feed (soil fumigation)
- b. Non-Domestic, Indoor food/feed (soil fumigation, e.g. nursery beds)
- c. Non-Domestic, Indoor non-food/non-feed (ornamentals in green-houses and nurseries)
- d. Non-Domestic, Food-Feed (raw agricultural commodities, processed food)
- e. Domestic, Non-Food/Non-Feed (dwellings, empty potato storage, empty seed storage areas)
- f. Non-Domestic, Food-Feed (flour & feed mills, milling machinery)
- g. Non-Domestic, Non-Food/Non-Feed (wood poles, pilings, garbage dumps)
- h. Non-Domestic, Domestic, Food-Feed (rodent burrows) Indoor-Outdoor
- i. Non-Domestic, Non-Food/Non-Feed (rodent burrows) Indoor-Outdoor
