DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.
This product is intended for exterior use and above ground use.

Add one part of Dura-Treet 40 to nine parts of fuel oil or kerosene and mix well. Treat wood members as described below or by pressure treating in a commercial pressure facility. Pressure treatment to proper retention levels makes treated wood products suitable for ground contact use.

DIPPING OR SOAKING

To protect dry and well seasoned timbers, posts and other heavy wood members before construction or before placing wood in contact with the soil, dip each wood member for 12 to 48 hours to give effective penetration to the wood. All wood members should be free of bark before soaking treatment.

STORAGE AND DISPOSAL

PROHIBITIONS - Do not contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL - Pesticide spray mixture or residue that cannot be used according to label directions must be disposed of according to Federal, State or local regulations under the Resource Conservation and Recovery Act.

CONTAINER DISPOSAL - Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other approved State and local procedures.

GENERAL - Consult Federal, State or local disposal authorities for approved alternative procedures.
