Avoid contamination of foodstuffs.

"DESTROY CONTAINER WHEN EMPTY"

NET WT. 1½ OZ.

## MRS. MARTIN'S FLEA POWDER

PROTECTS YOUR PET AND PREVENTS INFESTATION

**DIRECTIONS FOR USE:** Take red tip off, cut off ½ inch or more. Shake powder on animal. Use sparingly on young kittens and puppies. Always begin with the head and ears. Apply gently around the eyes. Now apply powder into the skin folds between toes and under tail. Now, begin with the neck, underbody, legs, and the full area of the tail.

For the long haired animals, rub against direction of growth for deeper penetration. Move back and forth, for better coverage. Apply as needed. Should more powder be needed, cut ¼ inch more.

**WARNING:** Do not sprinkle kittens or puppies under four weeks old. Keep the dust out of the eyes of pets. Do not shake in face.

MRS. MARTIN'S FLEA POWDER IS ODORLESS, NON-STAINING, AND MAY BE USED ANYWHERE IN YOUR HOME WITHOUT DAMAGING MATERIALS OF ANY KIND.

For effective control. Sprinkle pets bedding. Pet quarters should be dusted at the rate of one oz. per 50 sq. ft. Favorite sleeping areas and wherever infestation is suspected. Apply as needed.

### ACTIVE INGREDIENTS:

Amorphous Silica Gel*	95.3%
Ammonium Fluosilicate	4.7%
Total	100.0%

\*SiO<sub>2</sub> 90%
