*Use 8/19/72*

## CRAB GRASS KILLER

UNDEP

READ ENTIRE LABEL BEFORE USING PRODUCT.

NO-CRAB is to be used for destroying Crab Grass in established turf except Centipede, Carpet and St. Augustine grasses. It is also recommended for controlling Dallis Grass.

### DIRECTIONS

Early treatment: It is preferable to use NO-CRAB in the seeding or early branched stage, however, it will control all stages. For best results, good soil moisture is essential. When applied during periods of draught, a thorough watering of the area is necessary prior to application. Keep area mowed at from 1" to 1 1/2" during treatment. New lawns or areas should not be treated until after 3 mowings. Wanted grasses may be temporarily affected, especially during hot, dry weather. The more sensitive Bent and Fescue grasses may be temporarily discolored. Thorough watering will usually revive them. The more persistent Blue-grasses, Zoysia, Bermuda are not usually affected. Do not use on Centipede, Carpet, St. Augustine grass or Dichondra. For each 1000sq. ft. of area, apply 3 fluid ounces of NO-CRAB plus a suitable surfactant. Mix in 10 gallons of water. Thoroughly wet all crab grass. For best control, two applications 10 to 14 days apart is generally required. Repeat treatment as necessary.

For Dallis Grass: Apply at the rate of 2-3 fluid oz. of NO-CRAB plus a suitable surfactant mixed with 10 gallons of water per 1000 sq. ft. Repeat two or more times every 10 to 14 days. Observe the same precautions as for Crab Grass control.

ACTIVE INGREDIENTS:	
Monosodium Acid Methanearsonate*	34.8% <i>47%</i>
INERT INGREDIENTS:	65.2%
Total	100.0%
*Total Arsenic (as elemental) all in water soluble form - 16.1%	

Product contains 4.00 lbs. M.S.M.A. per gallon

MIXING INSTRUCTIONS: NO-CRAB must be thoroughly dissolved. Fill the spray equipment reservoir about half full of water and add the required amount of herbicide and surfactant with agitation. Finish filling the reservoir with water and apply. After use, clean equipment thoroughly by flushing with water. Do not store spray solution in tank for a prolonged period.

CONTAINER DISPOSAL: Do not reuse empty container. Wash thoroughly with water and detergent, crush if possible and discard in a safe place.

KEEP FROM FREEZING: If this product is stored in cold or freezing weather it may separate or thicken. This will not harm the performance. Before using, warm to room temperature and stir thoroughly.

DO NOT CONTAMINATE WATERS USED FOR DOMESTIC CONSUMPTION OR BY ANIMALS, WILDLIFE AND AQUATIC LIFE OR FOR IRRIGATION PURPOSES.

NOTICE: Use of this material in a manner, or at any time other than in accordance with the directions may produce plant injury, excessive residue, or other undesirable results. Sungro Chemicals, Inc. makes no express or implied warranties other than specified on the label.

## CAUTION: Keep Out of the Reach of Children

CAUTION: Harmful if swallowed. Avoid contact with skin. Avoid breathing spray mist. Wash hands after using. Avoid storage near feed or food products. Keep children off treated areas until this material has washed into the soil.

ANTIDOTE: If taken internally, induce vomiting and call a physician at once.
