**BIKINI — RACING ANTIFOULING**

BIKINI is a racing antifouling paint which provides a smooth, hard, and durable finish. It is designed to prevent the growth of barnacles, algae, and other marine organisms on the hull of a boat. The paint is easy to apply and dries quickly. It is available in a variety of colors, including white, black, and green. BIKINI is the most effective antifouling paint available today.

When you apply BIKINI to the hull of your boat, you will notice a difference in the way the boat handles. The hull will be smoother and the boat will move through the water more easily. This will save you time and money on your next race. BIKINI is the only antifouling paint that is guaranteed to last for at least one season. Do not let your boat's performance suffer. Buy BIKINI today!

DO NOT contaminate water by pouring or dumping. Dispose of waste properly.
